Mr. Charles W. Mason, Business Representative  
I.B.E.W. - Local B-1245  
910 Central Tower Building  
703 Market Street  
San Francisco 3, California

Dear Mr. Mason:

On October 28, 1946, this Company is taking over the operation of the Utica Power Company, which includes the Angels and Murphys Power Houses.

The plants will be operated on a three shift basis, and it is proposed that we establish a First Operators' rate of \$52.60 per week. If you have no objections, this rate will be put into effect on the date the property is acquired.

Yours very truly,

  
R. J. TILSON  
Supervisor, Industrial Relations.

Pacific Gas & Electric Company

Dear Mr. Tilson:

In reference to your letter of October 25th in which you brought to our attention that you were anticipating taking over the operation of the Utica Power Company and had proposed the First Operators' rate of \$52.60 per week for the operators at both the Angels and the Murphys Power Houses.

Inasmuch as we have had no opportunity to talk to the operators at either one of these power houses, I would be rather hesitant to make a definite agreement for these rates since we are not sure of the size of the plant and method of operation nor anything else.

However, you may consider this letter to be temporary approval of the proposed rate, but we will withhold a reservation for the presentation of a grievance in the immediate future should we find that after personal contact these stations should be given a higher rating.

Yours very truly,

Charles W. Mason  
Business Manager
