Gentlemen: Attention: Mr. Ronald T. Weakley, Business Manager

With the imminent completion of the first two units of Pittsburg Steam Plant, it has become necessary to employ a full time operating crew for this plant. All the operating classifications necessary have previously been negotiated, with the exception of Auxiliary Operator.

Company, therefore, proposes to establish such classification, with the same job definition and wage rate at Pittsburg Steam Plant as is now in effect at Contra Costa and Station "P" Steam Plants, i. e.:

Auxiliary Operator

A shift employee who operates and services auxiliary equipment; does switching under the direction of the Control Operator; also does necessary cleaning about the station. Shall be required to operate high pressure boiler feed pumps in emergencies. May direct employees assisting him in the performance of his duties.

Wage rate: \$83.80

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one copy of this letter to Company.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY

By 
Manager, Personnel Department

The Union is in accord with the foregoing and it agrees thereto as of the date hereof.
