NOTES

Hunters Point

Wherever "Hunters Point" is used it means Units 2, 3 and 4 of Hunters Point Power Plant except as otherwise shown.

Dual Classifications

Vacancies in dual classifications will not be subject to bid between power plants except between Avon, Martinez and Oleum.

Employees in dual classifications shall accrue classification seniority for bidding purposes in the lower of the two classifications which make up the dual classification.

Posting of Vacancies

When posting a vacancy which occurs in a classification more than one step above the beginning job in any plant, successive vacancies, which are expected to occur as a result of filling the original vacancy, may be posted for bid at the same time.

Accrual of Seniority

When an employee bids under Section 205.7a or 205.7c on a vacancy in a plant other than the one in which he is employed, his classification seniority for such bid shall include time worked in his present classification and time worked in any lower classifications from which he could have bid to such vacancy under such Sections.

Preferential Consideration Under Section 205.7(b)

When two or more employees who are receiving the top rate of pay in a classification submit bids on a vacant job in the next higher classification, in the normal line of progression, Company will, notwithstanding the provisions of Section 205.7(b) give preferential consideration to the bid of the employee with the greater classification seniority.
