STEPHEN A. RAYBURN, DIRECTOR
AND CHIEF NEGOTIATOR

JACK McNALLY, BUSINESS MANAGER

October 23, 2000

Local Union No. 1245
International Brotherhood of
Electrical Workers, AFL-CIO
P. O. Box 4790
Walnut Creek, CA 94598

Attention: Mr. Jack McNally, Business Manager

Dear Mr. McNally:

The Company and Union have discussed the impact of the new Cal-OSHA Respiratory Protection Program (Section 5144 of Title 8). These regulatory requirements became effective on May 22, 1999. This letter confirms the agreement reached regarding the implementation of these requirements within California Gas Transmission (CGT).

Identification of Respirator Users – Emergency Responders

While all employees in certain classifications must be clean shaven and wear respirators when assigned certain tasks that are part of their normal job duties (e.g. Title 300 Painters), only a limited number of employees in other classifications need to be clean shaven and prepared to wear respirators in order to respond to emergency situations (e.g., blowing gas).

Attached is a list of crews within California Gas Transmission (CGT) by classification and headquarters. Company proposes that forty percent (40%) of but no more than six employees at a headquarters (excluding Maintenance Assistant I, Maintenance Assistant II, Sr. Maintenance Assistant, and Utility Leadperson Topock [PIO]) will be identified as emergency responders and will be required to be clean-shaven at all times.

The Company will solicit volunteers to serve as emergency responders. If there are an insufficient number of volunteers in a headquarters, the Company will appoint employees in that headquarters as immediate responders using reverse seniority.

The Company will not limit the number of employees volunteering to serve as emergency responders. All employees qualified as emergency responders in identified classifications will be fitted for respirators and available for emergency response.

Emergency Overtime

Employees qualified as emergency responders will be the first called out during emergency overtime situations when a respirator may be required (e.g. blowing gas).

Job Bidding

The Company will consider the status of volunteers to serve as emergency responders before filling positions through Title 205 - Job Bidding and Transfer System.

In the event there are insufficient volunteers in the headquarters and classification, the job will be filled with the senior bidder who volunteers to serve as an emergency responder and remain clean-shaven.

Temporary Assignments

The Company will consider the status of volunteers to serve as emergency responders before filling temporary vacancies through Section 205.3.

If there are insufficient volunteers to meet the minimum established number of emergency responders in the classification and headquarters, temporary assignments will be offered to the senior qualified bidder in the headquarters who agrees to remain clean-shaven. If there are no volunteers from among bidders in the headquarters, the Company will upgrade the junior qualified bidder within the headquarters.

Accommodation

In the event an employee is in a classification that requires that they wear a respirator as part of their normal job duties or if they are involuntarily designated as an emergency responder and they cannot medically be qualified to wear a respirator, the Company and Union will discuss accommodation on a case-by-case basis.

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided and return one executed copy of this letter to the Company.

Very truly yours,

PACIFIC GAS & ELECTRIC COMPANY

By: 

Stephen A. Rayburn
Director and Chief Negotiator

The Union is in accord with the foregoing and agrees thereto as of the date hereof.
