## b. Additional Shift Positions

- (1) The Chemical & Radiation Protection Technicians assigned to these positions must be qualified for the assignment. In no case shall the total number of technicians assigned to backshifts exceed 19. (Excluding the six Technicians under 2.a. herein.)
  - (2) The workweeks described in 2.a. (2) or a Mon-Fri workweek schedule may be used when establishing these additional backshift positions.
  - (3) No more than eight of the remaining day-shift positions will be required to work a 10-4 schedule.
- \*3.a. A meeting will be held every third quarter to fill the job assignments for the upcoming three quarters as defined in section 1. This meeting shall be held prior to the Computer Assisted Registration (CAR) date at California Polytechnic State University during the quarter before the new schedule. The Company shall post the job assignments for shift and non-shift positions to be selected each quarter by shift and workweek. These positions shall be filled in order of seniority with each technician making a single selection for the quarter, shift, and workweek. After all the technicians have made the selection, the list will again be routed until all positions are filled. A shift technician may choose any shift and workweek not already filled.
- \*\*3.b. In the event a technician selects a 0000 - 0800 shift, immediately following a 1600 - 2400 shift and these selections have neither the final Thursday of the 1600 - 2400 nor the first Friday of the 0000 - 0800 shift as non-workdays, the technicians first non-workday of the new 0000 - 0800 shift shall be moved to the first day (Friday) of the new 0000 - 0800 shift, this day shall be without pay, and the technician will work one of his next non-workdays.
4. Shift technicians, other than those required for any of the shift positions described above, may (with the Company's agreement) work any of the 10-4 workweek schedules on any shift. If agreement cannot be reached, technicians shall work a 0800-1600 Monday through Friday workweek.

- \*5. The two relief positions shall be filled by qualified shift technicians. If there are no volunteers, bids, transfers, or new hires for the relief position, the assignment will be rotated quarterly to the least senior, qualified technician on the day pool at that time.

The relief workweek schedule will be selected from either of the following with agreement of the technician and Company:

	<u>Day of the Week</u>													
	SU	MO	TU	WE	TH	FR	SA	SU	MO	TU	WE	TH	FR	SA
Relief Work- week #1	X	X	X	X	X	0	0	0	0	X	X	X	X	X
Relief Work- week #2	0	X	X	X	X	X	0	0	X	X	X	X	X	0

If agreement cannot be reached, one relief technician shall work each of the two workweeks. The senior relief technician may select the workweek of his choice.

- 6. If a permanent vacancy occurs in shift positions as described in section 2, and the Company elects to fill this vacancy, it shall do so by assignment of the least senior, qualified Chemical & Radiation Protection Technician not filling an established shift position.
- 7. The time accrued in the specific disciplines of Chemical or Radiation Protection shall count one month for one month toward ANSI qualification. After the shift and workweek selections have been completed, qualified technicians may volunteer, by seniority, for general assignments of Chemical and Radiation Protection (with Company approval), but must spend at least one-quarter per calendar year in each discipline. Time accrued in the ANSI shift positions shall be accounted as 50 percent toward each discipline.
- \*8. The Company shall maintain 13 Traveling Chemical & Radiation Protection Technician positions. If a permanent vacancy occurs, it will be filled by established job bidding procedure. If no valid prebids are on file, the Company will offer the position by seniority to the Shift Technicians.
- \*\*9. Shift Chemical & Radiation Technicians may be rescheduled to work other than their regular workhours and workweeks in accordance with the provisions of Section 202.17 and it's clarification.

Section 202.17 can be applied only when the work to be performed falls within one of the categories listed in sub-paragraphs (a), (b), (c), or (d) of the section and during a refueling outage or overhaul of either or both units.

- \*\*11. Establish a local Union and Company committee to resolve questions and problems that arise over the Shift Agreement in an expeditious manner.
- 12. The shift schedule agreement is hereby determined and can only be changed by the Business Manager, Local Union 1245, IBEW, and the Manager of Industrial Relations, pursuant to Subsection 202.16(b) of the Physical Labor Agreement.
