Attention: Mr. Jack McNally, Business Manager

This letter cancels and supersedes our letter dated October 9, 1991 on the same subject. Pursuant to Subsection 204.4(b) and Section 205.19, Company proposes to reclassify the positions of three (3) Measurement and Control Mechanics, located at the Fresno Service Center and the incumbents to Gas Control Technicians without regard to Subsection 205.4(h) or Section 205.7. The incumbents and service dates are as follows:

Harold L. Peterson	2-6-67
James R. Moore	6-30-75
Terry McElhane	7-24-78

Operation and maintenance work associated with the new Gas SCADA system, new electronic measurement systems and the equipment associated with the therm billing system, require the higher classification because of the more technical nature of this work. This work now involves computer systems and advanced electronic systems.

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Very truly yours,

PACIFIC GAS & ELECTRIC COMPANY

By *David J. Bergman*
Director and Chief Negotiator

The Union is in accord with the foregoing and it agrees thereto as of the date hereof.
