 LETTER DECISION
 PRE-REVIEW REFERRAL

Shasta Division Grievance No. 13-21-76-21
P-RC 270
Propriety of Materials Being Handled by ET&D Crew

January 11, 1977

MR. M. E. BENNETT, Chairman
Shasta Division
Joint Grievance Committee

The above-subject grievance has been discussed by the Pre-Review Committee prior to its docketing on the agenda of the Review Committee and is being returned to the Joint Grievance Committee for settlement in accordance with the following:

The issue concerns the call-out of an Electric Transmission and Distribution crew on Saturday, August 7, 1976, for emergency duty. The crew secured the needed materials from the yard without the assistance of the Materials Distribution Department, which included the loading of a transformer. The grievance, filed on behalf of the employees signed up for call-out in the Materials Distribution Department, are alleging that they should have been called and are requesting pay as if they had worked. The Joint Statement of Facts indicates that the ET&D crews in the yard have been securing emergency material in the general manner of this instance for at least ten years without question. This issue is not new to the Review Committee, and in cases where crews can secure emergency material without the expertise or assistance of the Materials Distribution Department do so without violation of the Labor Agreement. Therefore, the Pre-Review Committee agrees that the crew's actions, in this case, were proper, and the case should be closed without adjustment.

When a settlement is reached by the Joint Grievance Committee, the Review Committee should be sent a copy of the final disposition.
