East Bay Division Grievance No. 1-755-79-111
P-RC 503
Performing Inspections on Trucks and Trailers,
First Operators.

March 27, 1980

MR. M. E. BENNETT, Chairman
East Bay Division
Joint Grievance Committee

The above-subject grievance has been discussed by the Pre-Review Committee prior to its docketing on the agenda of the Review Committee, and is being returned, pursuant to Section 1 B(1) of the Review Committee Procedure, to the Joint Grievance Committee for settlement in accordance with the following:

The issue in dispute concerns the appropriateness of various Operating Department classifications at Newark Substation performing short inspections on two gasoline tractors parked at the Substation. The Joint Statement of Facts indicates that the issue of inspecting the trailers which contain mobile sub-station equipment was resolved by the Local Investigating Committee. The record further indicates that these inspections were formerly handled by the Maintenance Personnel at Newark with the assistance of the Transportation Department. In view of the recently negotiated job definitions for operating personnel in the Substation Department, the Pre-Review Committee is of the opinion that the maintenance inspections at issue were not intended and, therefore, should not be assigned to those classifications.

This case is considered closed on the basis of the foregoing, and the closure should be so noted in the minutes of the next Joint Grievance Committee meeting.
