Local Investigating Committee

The above-subject grievance has been discussed by the Pre-Review Committee and is being returned to the Local Investigating Committee with a recommendation for settlement in accordance with the following guidelines.

Briefly, a review of the system determined that the predominant practice is preparation of time transmittals by clerical classifications. Inasmuch as the Committee could establish no contractual means or compelling reason to deviate from this practice, it determined that this work is most appropriately performed by clerical classifications at this headquarters. Therefore, this work should be reassigned from System Operators back to clerical employees at this headquarters.

Based on the foregoing, P-RC 1225 is closed. This settlement is not intended to be applicable to any other headquarters.
