Steam Generation Grievance No. GEO-24-570-90-07
P-RC 1500

Local Investigating Committee

This grievance concerns the 1989 distribution of prearranged overtime in the Maintenance Department of East Geysers Power Plant. After reviewing P-RC 1276 and reconstructing overtime records to 85% accuracy, the Local Investigating Committee determined that an unjustifiable inequitable distribution occurred.

The issue referred to the Pre-Review Committee was the question of liability determination. This question was recently resolved in P-RC 1456. The Local Investigating Committee is directed to apply that same formula to this case.

This case is returned to the Local Investigating Committee for closure. Based on the foregoing, this case is removed from the Pre-Review Committee agenda.
