 Local Investigating Committee

Subject of the Grievance:

This case concerns the use of temporary agency personnel (Scheduling Assistants) at Diablo Canyon Power Plant to perform duties associated with PREMIS scheduling, report generation analysis and correction. At DCPP, these duties have been performed by agency personnel since 1985 when the PREMIS schedule was developed.

Discussion:

The Union opined that this same type of work is performed by Routine Plant Clerks or those higher in the line of progression at other plants and that this is bargaining unit work.

Company opined that the duties at Diablo Canyon Power Plant exceed and are more extensive than those at other plants. Further this work has never been performed by bargaining unit employees.

Decision:

In the interest of resolving this case and without prejudice to the position of the Company, Company proposed establishing a bargaining unit classification to perform this work.
