**I.C. File No. 68  
Shasta Division Grievance No. 54**

**October 11, 1954**

**MR. L. B. MASCO:**

At the last meeting of the Review Committee the Union representatives decided to withdraw Shasta Division Grievance No. 54 - Award of Job No. 134145 from the Committee again. This has been done. It is recommended, however, that your Division Grievance Committee attempt to establish locally the lines of progression you desire to maintain for filling jobs such as this in the future.

The question as to whether or not a consistent past practice has been in effect was left unanswered. Until negotiations between Company and Union establish a universal procedure, it is believed that a local understanding will suffice for similar cases which may arise in Shasta Division.

**V. J. HENNING, Chairman  
Review Committee.**
