Mr. V. J. Thompson, Chairman
Review Committee
Pacific Gas & Electric Company
245 Market Street
San Francisco 6, California

Dear Mr. Thompson:

The problem of providing an answer to the specific situation involved in R. C. #360 (Drum Division Grievance #15-1) is compounded by the time lag between the incident and our joint review of the situation. This factor has resulted in a situation where needed information not included at the time of its filing, is not now able to be obtained. It is our feeling that these missing facts could alter the decision on the issue involved and could have far-reaching effects on future cases of this kind.

The Union is not in agreement with the action of the Division in this case but because of the possibility of adverse effects which could result from a decision based on incomplete facts, or in using a hypothetical case, we are withdrawing R. C. #360 from the file and will consider the case closed. We do so without prejudice of processing further incidents, should they occur.

Very truly yours,

L. L. Mitchell, Secretary
Review Committee
