**Review Case #495  
San Francisco Division L.I.C. #2-63-13**

It has come to our attention that the grievant in R. C. #495 has now been promoted to the Electrician classification. He indicates he desires us to withdraw the grievance involving his bypass in this case. We are not in agreement with the procedure used by the Company in the bypass, particularly when the basis used was ignored in the subsequent award to Electrician. We do not accept the testing used in this case and do not consider this a closed issue. However, due to the desire of the individual and in view of the fact that the Company has, in effect, nullified the validity of the test by ignoring it in this subsequent award, the Union will consider this case closed.
