Review Committee File No. 859
San Joaquin Division Grievance No. 25-68-12
Disqualification of Bidder to Apprentice
Gas Measurementman

February 24, 1969

MR. L. A. WETTER, Chairman
San Joaquin Division
Joint Grievance Committee

The above-subject case has been discussed by the members of the Review Committee, with the Division Personnel Department and the Division Gas Superintendent. Based on the facts contained in the record and other facts brought out in our discussions, it is the decision of the Review Committee that the bypass of the grievant will be sustained. In doing so, however, it is further understood that the grievant will be allowed to qualify for an Apprentice Measurementman vacancy as though he had not previously taken the ACT test nor attended the Primary Session of the Apprentice Gas Measurementman Centralized Training School.

This case is considered closed based on this understanding and should be so noted in the minutes of your next Joint Grievance Committee meeting.

L. V. BROWN
