REVIEW COMMITTEE DECISION

- DECISION
 LETTER DECISION
 PRE-REVIEW REFERRAL

General Construction Grievance No. 3-655-79-144
 Review Committee File No. 1515-80-41

Subject of the Grievance

This case concerns a question of temporary upgrade from Heavy Truck Driver to Special Driver in the Gas Department.

Facts of the Case

The grievant was assigned to operating a hydraulic boom truck (R.O. Stinger TC 120-4) in September, 1979. The truck's boom extends 47 feet and does not have a personnel bucket affixed to the boom. The previous operator of the truck was a Tractor Operator B.

In Exhibit X, Note 5 under the Heavy Truck Driver classification reads:

"The Operator of a boom truck with a basic boom tip height of 45 feet or under and with a personnel bucket. (Such as R.O. Stinger - TC 50 - TC 40 - TC 35.)"

Note 2 under the Special Driver classification reads:

"The operator of a boom truck with a basic boom tip height of over 45 feet, and with a personnel bucket. (Such as Tel-e-lect.)"

Inasmuch as the boom did not have a personnel bucket, it does not fall within either of the above notes.

Decision

The record reflects that the grievant was offered the opportunity to operate this truck at the Heavy Truck Driver rate and he accepted.

Based on all of the foregoing, the Review Committee agrees to close this case without adjustment and without prejudice to the position of either party.
