Local Investigating Committee

The above referenced grievances were returned to the Ad Hoc Committee following the receipt of additional information from the Local Investigating Committee. The Local Investigating Committee determined that for the last ten to fifteen years the T&D Bulletin 2-15 work has been performed by Linemen upgraded to the Troubleman classification. Based on this information the Ad Hoc Committee is in agreement that it is appropriate to continue the use of the Troubleman classification at this location to complete the 2-15 work. The grievances referenced above should be settled accordingly and any backpay issues are referred to the Local Investigating Committee for resolution.

This settlement is effective only for the location at issue and is without prejudice to the performance of this work at any other location.
