Dear Mr. Dalzell:

The Company and Union have discussed the Company's interest in exploring utilization of IBEW represented classifications who work with Compressed Natural Gas/Liquefied Natural Gas (CNG/LNG) to address a possible new revenue stream. As a result, the Company proposes a pilot program as described below that will remain in place from August 1, 2018 through August 1, 2019.

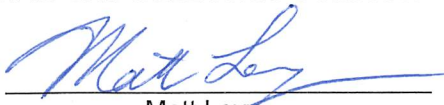

During the period of the pilot, LNG/CNG crew members will perform their normal work type and tasks but will do so on privately owned lines/equipment or for customers not normally serviced by PG&E. This work will be performed within the PG&E service territory. This pilot shall not cause work performed on privately owned lines/equipment or for customers not normally serviced to become the jurisdiction of IBEW Local 1245. Only explicit agreement following this pilot will change the jurisdiction.

This proposal has been discussed with Senior Assistant Business Manager Anthony Brown

If you agree, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Very truly yours,

PACIFIC GAS & ELECTRIC COMPANY
