Attention: Mr. L. L. Mitchell, Business Manager

Gentlemen:

As a result of the recent changes in Materials Distribution classifications, qualifications for prebidding a Materials Leadman classification include a valid Class 1 driver's license and the ability to type 25 words per minute. The requirement that prebidders actually possess a Class 1 license is causing undue delays in filling Materials Leadman positions through the prebid system. Consequently, Company intends to relax this requirement to the extent of allowing appropriately classified employees to prebid a Materials Leadman position if they have successfully passed both the state's written test for the Class 1 license and the physical examination for the license as well as the typing test. However, prior to awarding a Materials Leadman classification to a prebidder the prebidder will be required to actually obtain the Class 1 license.
