Dear Mr. Dalzell:

Pursuant to discussions during 2011 General Negotiations, the Company proposes that an ad hoc committee be established to review and update the Title 200 and Title 300 Electrical Technician job descriptions to include duties as appropriate as soon as possible. Upon agreement on the revised job descriptions, a wage increase of 4.1% will be made to the Title 200 and Title 300 Electrical Technician classifications. This wage adjustment will be retroactive to August 1, 2012. In addition, the parties will use the updated job description to perform a joint benchmarking study, in conjunction with a Compensation professional, for the Electrical Technician classifications among the Western states investor-owned utilities. The benchmarking study will include duties performed by Electrical Technicians in all departments (Substation, Power Generation). A joint benchmarking study will also be performed for the duties of the Telecommunications Technician classification. The concept of creating a separate Hydro Technician classification will be discussed in the separate Hydro ad hoc negotiating committee. This agreement cancels and supersedes Letter of Agreement 11-46.

A 5% differential will be established between the new rate for the Electrical Technician classifications and the top step of their respective Crew Leader classifications. In addition, a 5% differential will be established between the top step of Electrical Technician Crew Leader (Title 200) and Technical Crew Leader A-Not Gas (Title 300).

In order to address additional wage compression issues caused by the above adjustments, the parties agree to the following: 1) Combine the start rate with the 6-month rate into a single rate for the Electrical Technician Crew Leader-Helms (50232070 0758). 2) Combine the Technical Crew Leader B – Not Gas (50253774 1607) classification with the Technical Crew Leader A – Not Gas (50253773 1606) classification. All incumbent Technical Crew Leader B will be reclassified to Technical Crew Leader A. 3) Combine the start rate with the 6-month rate for the Telecommunications Crew Leader, and increase that single rate to match the Title 200 Electrical Technician Crew Leader rate.

Adjusted 2012 rates of pay are as follows.

The Company also proposes to establish a 5% differential between the Electrician-Switching (0494) and the top step of Electric Maintenance Crew Leader (0750).
