

SIXTH SUPPLEMENTARY AGREEMENT

L. A. 2-1-58

THIS SIXTH SUPPLEMENTARY AGREEMENT made and entered into this first day of February, 1958, by and between PACIFIC GAS AND ELECTRIC COMPANY and LOCAL UNION NO. 1245 of INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS (affiliated with the American Federation of Labor-Congress of Industrial Organizations).

W I T N E S S E T H that:

WHEREAS the parties hereto desire to supplement that certain agreement entered into between them on the first day of September, 1952, and thereafter amended from time to time, covering the wages, hours and working conditions of certain therein designated employees of Company, hereinafter referred to as the Agreement of 1952,

NOW, THEREFORE, the parties hereto do agree to supplement the Agreement of 1952 as follows:

An additional Section, designated Section 600.7, shall be added to Part VI, entitled "Job Definitions" to read as follows:

"600.7 The job definitions applicable to certain classifications of operation, maintenance and construction employees in the Division Commercial Departments and the lines of progression between some of such classifications, shall be set forth in the tabulation entitled 'Job Definitions and Lines of Progression,

Division Commercial Departments' which is attached hereto, made a part hereof, and marked Exhibit VI-F."

IN WITNESS WHEREOF the parties by their duly authorized representatives have hereby caused these presents to be executed this _____ day of _____, 1958.

PACIFIC GAS AND ELECTRIC COMPANY

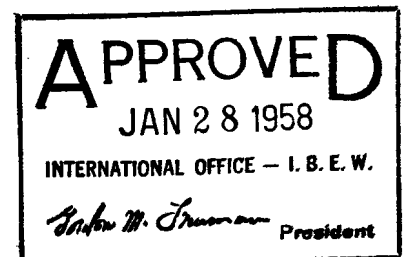

By *David Anderson*
Its Vice President and
Assistant General Manager

And by *J. H. Con*

LOCAL UNION NO. 1245 of INTERNATIONAL
BROTHERHOOD OF ELECTRICAL WORKERS
(affiliated with the American Federation
of Labor-Congress of Industrial Organiza-
tions)

By *Frank D. Sullivan*
Its President

And by *Ronald T. Westley*
Its Business Manager

JOB DEFINITIONS AND LINES OF PROGRESSION
DIVISION COMMERCIAL DEPARTMENTS

Head Power Surveyor

An employee who performs the duties of a power surveyor and is the lead man directing, training and checking the work of five or more power surveyors.

The next lower classification is power surveyor.

Power Surveyor

An employee who surveys customers connected electric load and uses and records the data relating thereto for the purpose of analyzing and applying the proper rate schedules; checks and sketches customer's wiring; locates and reports rate and rule deviations, metering irregularities, low voltage, overloads, or other abnormal conditions; may be required to survey gas installations; is qualified to discuss rates and use with customers.

There is no next lower classification to power surveyor; vacancies in this classification will be filled in accordance with the provisions of the agreement.

Junior Pump Tester

An employee who assists in the testing of pumps by performing such duties as taking well soundings, drilling discharge or intake pipe, installing pitot tubes, making rpm tests, and connecting manometers. In addition, he assists the pump tester in the compilation of reports as well as the care of equipment used in connection with pump testing.

This classification is a beginning job.

Complaint Inspector (San Francisco Division)

An employee who possesses a general knowledge of gas and electric meters and appliances and whose major duty is contacting customers and making investigations with respect to complaints registered. This may require "premises tests", searching for metering irregularities, tracing lines to determine connected loads, analyzing customer accounts and the performance of other related work.

The classifications of power surveyor, serviceman, service mechanic, meterman, and inspector in the Electric Meter Department will be considered as the next lower classification to complaint inspector and combined classification time will be used for bidding purposes.
