Revise Paragraph A of the Clarification to  
Section 202.17 of Title 202 Hours as Follows:

A. General Application of Section 202.17

1. Application to Day Employees

a. Section 202.17 provides for the scheduling of day employees at other than regular work hours. For the first four work days of any such situation they receive overtime compensation for all work performed outside of regular work hours.

b. Section 202.17 can be applied only when the work to be performed falls within one of the categories listed in Subparagraphs (a), (b), (c) or (d)\* of the Section.

c. Although "shifts" are established under Section 202.17, the employees assigned to these "shifts" do not fall within the classifications listed in Exhibit III of the Agreement. They are still considered to be within the same group with which they are regularly affiliated (day employees) except that they are scheduled to work for periods of eight hours or more at other than their regular work hours. Their regular days of work, however, remain the same as the days in the basic workweek of their regular schedule. They are entitled to overtime for any work performed outside the new scheduled hours unless they:

(i) are reassigned by reason of the provision to rotate because the work extends beyond four workweeks,

(ii) are returned to their former regular work hours due to an unanticipated interruption of work as provided for in ITEM "Q," or

(iii) resume their regular schedule of work hours as provided for in Section 202.18.

Time worked by employees on their non-work days is covered by the overtime provisions of Section 208.1.

2. Application to Shift Employees

a. The application of Section 202.17 to shift employees is limited to the start-up or testing of an entirely new facility or of a new unit at an existing facility. Such application is further limited to situations where additional shift employees have been added at an existing facility and have not been integrated into the normal shift rotation for the operating portion of such facility, or where shift classifications have been established at a new facility, and plant operations have not started.

b. Section 202.17 provides for the changing of shift employees (other than relief employees), assigned to static day shifts, to other shifts under the conditions outlined below. Such other shifts shall either be one of the following standard rotating operating shifts (6-2, 7-2, 7-4; 7-2, 6-2, 7-4; 7-2, 7-2, 6-4; 10-4; 5-2;) or a rotating shift providing for two 12-hour work days with no overlap. Employees who have their shifts changed

pursuant to Section 202.17 shall receive overtime compensation for all work performed on the first four work days worked outside of the hours of the day shift they were assigned to immediately prior to application of Section 202.17.

c. Shift employees assigned to a Section 202.17 shift shall be entitled to overtime for any work performed outside the new scheduled hours unless they:

- (i) are assigned by reason of the provision to rotate because the work extends beyond four workweeks,
- (ii) resume their static day schedule of work hours as provided for in Section 202.18, or
- (iii) are placed into the rotating schedule for normal plant operation.

Time worked by employees on their non-work days of the 202.17 schedule is covered by the overtime provisions of Section 208.1.
