Electrical Workers, AFL-CIO
P. O. Box 4790
Walnut Creek, California 94596

Attention: Mr. Dean Cofer, Business Manager

Gentlemen:

In January of 1976, the classification of Water and Gas Subforeman - Willits was established in North Bay Division. This was done to adequately provide for the operational requirements of the Water Department in Willits. Since this date, it has been Company's experience that certain changes should be made in both the Water and Gas Subforeman - Willits description and in the line of progression to this classification.

Accordingly, pursuant to Section 204.4, Company proposes to revise the above definition in the following manner:

0827 Water and Gas Subforeman - Willits

An employee who is a working foreman in charge of the operation, construction, and maintenance of the Willits Water System including the treatment plant, storage facilities, pump stations, and distribution system, and is engaged in the operation, construction, and maintenance of gas transmission and distribution facilities. He shall have personal qualifications of leadership and supervisory ability, craft qualifications of a Water Treatment Plant Operator - Schedule I and a Water Service Subforeman. May perform welding if qualified. Must be familiar with water construction and operating standards, safety rules, accounting procedures and other applicable rules and procedures. He shall have a Water Treatment Plant Operator's Certificate, Grade II License.

Next Lower Classification

Same or Higher Classification

1904 Water Treatment Plant
Operator, Schedule I -
Willits

0827 Water and Gas Subforeman -
Willits

Wage Rate: Start - \$349.40
End 1 yr. - \$372.90

7-1-1981
1904

In conjunction with the above changes, Company further proposes, pursuant to Section 204.4, to establish the position of Water Treatment Plant Operator, Schedule I - Willits with the following job definition, line of progression, and rate of pay:

1904 Water Treatment Plant Operator, Schedule I - Willits

An employee who operates one or more full treatment water plants of two to five million gallons per day capacity and is engaged in the operation, construction, and maintenance of gas transmission and distribution facilities. He operates all equipment, including pumps, filters, and controls; runs all laboratory control tests, except bacteriological; collects bacteriological samples; maintains plant records; performs minor maintenance duties and keeps buildings, grounds and equipment in a clean and orderly manner. He is required to have a Water Treatment Plant Operator's Certificate, Grade II License.

Next Lower Classifications

0524 Fieldman
0930 Helper

Same or Higher Classifications

0827 Water and Gas Subforeman - Willits
1904 Water Treatment Plant Operator, Schedule I - Willits

Wage Rate: \$325.30 per week

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one executed copy of this letter to Company.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY

By 
Manager of Industrial Relations B
