Attention: Mr. Jack McNally, Business Manager

Gentlemen:

The Division Electric Operating Committee met on May 18, 1983 to review the 1982/83 point ratings for substations and hydro plants. At that meeting, the Company raised the issue of immediately reclassifying the station ratings of Stations "C", Oakland and "G", El Cerrito. Both stations are currently experiencing serious staffing problems and the survey data indicates that both locations qualify for an upward adjustment in station ratings. Therefore, pursuant to 204.4 of the Physical Agreement, Company proposes to reclassify Station "C", Oakland to a System Operator #1 rating and Station "G", El Cerrito to a System Operator #2 rating.

It was also agreed that these adjustments would have no effect on the issues presently before the Rerate Committee.

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY
