Attention: Mr. Jack McNally, Business Manager

Gentlemen:

As a result of our discussions on July 25 and August 22, 1984 concerning the bidding rights of General Construction (0644) Technical Subforeman A and (0645) Technical Subforeman B to Division Electric Maintenance technical classifications, Company proposes to amend Section 600.12, Exhibit VI-L, Division Electric Lines of Progression, for the (2390) Communication Technician and the (2400) Electrical Technician. At the same time, we are including the Helms classifications established by Letter Agreement 80-72-PGE, dated July 31, 1981.

2390 COMMUNICATION TECHNICIAN

An employee who, without direct supervision, is permanently assigned to and regularly performs installation, field testing and maintenance of intercommunication systems, telephone switchboards and other terminal equipment, supervisory, power and telephone line carriers, microwave, radio, remote signal and remote control equipment, load frequency control and telemetering equipment. In addition, he may be required to investigate, correct or make recommendations for the correction of radio and television interference complaints. His background of apprenticeship and experience must be such as to qualify him to perform these duties with skill and efficiency, and he must have a second-class radiotelephone operator's license. His assignments may include duties normally performed by an Electrical Technician.
