Jack McNally, Business Manager

January 21, 1992

Mr. Jack McNally
International Brotherhood of
Electrical Workers, AFL-CIO
P.O. Box 4790
Walnut Creek, CA 94596

Attention: Mr. Jack McNally, Business Manager

Pursuant to Subsection 204.4(b) and Section 205.19, Company proposes to reclassify the position of a Measurement and Control Mechanic, located at the Sacramento Load Center, 2001 Front Street to a Gas Control Technician. Operation and maintenance work associated with the new Gas SCADA system, new electronic measurement systems and the equipment associated with the therm billing system, require the higher classification because of the more technical nature of this work. This work now involves computer systems and advanced electronic system.

There are currently two M&C Mechanics located at the Sacramento Load Center. Company proposes to reclassify the senior M&C Mechanic, Michael Marquis, service date of March 19, 1968, to the reclassified Gas Control Technician position without regard to Subsection 205.4(h) or Section 205.7.

This proposal has been discussed with the Business Representative, Wayne Greer.

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Very truly yours,

PACIFIC GAS AND ELECTRIC COMPANY

By 
Director and Chief Negotiator

The Union is in accord with the foregoing and it agrees thereto as of the date hereof.
