 Electrical Workers, AFL-CIO  
 P. O. Box 4790  
 Walnut Creek, California 94596

Attention: Mr. Jack McNally, Business Manager

Gentlemen:

Company proposes to amend the job description for the Electrical Control Technician at Diablo Canyon Nuclear Power Plant, as outlined in Exhibit VI-B as follows:

This request is a result of a Company and Union committee which was established at Diablo Canyon to discuss the job duties of the Electrical Control Technician (DCPP). This revised language is underlined and the deleted language is in brackets.

2365 Electrical Control Technician - DCPP

An employee who, without direct supervision, tests, calibrates, maintains, and may install all electrical power plant control system and their individual components. This will include, but is not necessarily limited to, protective relaying, turbine and engine governors and their associated local annunciators, voltage regulators, inverters, battery charger controls, and crane controls. The employee may be required to assist plant engineers in performing and evaluating plant tests. The employee's background of training, education and experience must be such as to qualify the employee to perform these duties with skill and efficiency. The assignment may include duties normally performed by an Electrician.

If you are in accord with the foregoing and agree thereto, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY

By *J. R. Bright*  
 Manager of Industrial Relations

The Union is in accord with the foregoing and it agrees thereto as of the date hereof.
