Attention: Mr. Jack McNally, Business Manager

Gentlemen:

Pursuant to the provisions of Subsection 202.5(b) regarding the implementation of new work schedules for steam maintenance employees, Company hereby gives notice that the Steam Generation Department at Big Geysers Power Plant intends to implement a 10 days on/4 days off work schedule for certain maintenance employees, effective July 1, 1983.

This schedule change is necessitated in order to provide the Steam Generation Department with maintenance employee coverage on Saturday and Sunday. Therefore, while the planned schedule will allow for Friday, Saturday, Sunday, and Monday as regular days off, in order to provide for work crews every weekend, there will be two groups composed of 8 bargaining unit employees and one supervisor, which will alternate weekends off.

The classifications for each schedule are as follows:

	<u>Group 1</u>	<u>Group 2</u>	<u>Total</u>
Machinist	2	2	4
Mechanic	1	1	2
Welder	1	1	2
Helper/Mechanical	1	1	2
Electrician	1	1	2
Instrument Repairman	1	1	2
Materialsman (Tool Clerk)	1	1	2
	<u>8</u>	<u>8</u>	<u>16</u>

Assignments to the 10 and 4 schedule will be made in accordance with Subsection 202.5(b) as agreed to in our settlement reached on April 2, 1980.

If you have any questions, or require further information on this matter, feel free to contact my office.

Sincerely,
