Joint Grievance Committee
May 19, 1980

Statement of the Case

This case concerns employees working at the Morro Bay off-site fuel oil "tank farm." During the period involved, General Construction had several crews headquartered at the site. The employees' access to the tank farm headquarters was over a road constructed and maintained by the Company. The grievance concerns the Company's posted speed limit of 15 miles per hour.

Among other matters, the grievance requests the Company to rescind the speed limit.

Decision

The work involved has long since terminated. This case is closed without prejudice to the position of either party.
