RC 202

MR. V. J. Thompson, Chairman
Joint Review Committee
Pacific Gas & Electric Company
245 Market Street
San Francisco 6, California

Dear Mr. Thompson:

Union has decided not to file Review Case #202 (General Office Grievance #8) for arbitration and is dropping it from the current file.

While we believe that the job held by these employees does not meet the criteria set forth in Section 18.3, Union is unable to document a practice other than the procedure as stated by the General Office. It is our belief that, as the parties have agreed to negotiate Lines of Proression in the clerical classifications, we should accept the past practice until definite lines are established.

Very truly yours,

/s/ L. L. Mitchell, Secretary
Review Committee
