Mr. V. J. Thompson, Chairman  
Joint Review Committee  
Pacific Gas & Electric Company  
245 Market Street  
San Francisco 6, California

Dear Mr. Thompson:

In our efforts to develop information relative to Review Case #221 (G. C. Grievance #255), we have discovered that the grievant has moved and cannot be located.

We do not feel that the evidence as advanced by the General Construction Department constitutes just cause for discharge. However, with no grievant available, we are unable to proceed. Union therefore withdraws R. C. #221 from the active file of the Review Committee and will consider this matter closed.

Very truly yours,

L. L. Mitchell, Secretary  
Review Committee
