Sacramento Division Grievance Number 77
R. C. File Number 243

February 6, 1961

MR. H. B DERR, Chairman
Sacramento Division
Joint Grievance Committee

The above mentioned grievance has been discussed in the Review Committee, particularly relating to circumstances concerning the change in job duties performed by Mrs. Hope George before and after being re-classified to Clerk-Steno D. No settlement was attained. As a result of subsequent conversations with your Division supervision, it was decided that the grievance could probably be settled at the local level if it was returned for your attention.

The Union has, therefore, agreed to withdraw the grievance from Review pending such possibility. This letter will serve as a formal referral of the grievance back to the Sacramento Division Joint Grievance Committee.

/s/ V. J. THOMPSON, Chairman
Review Committee

R. C. #243, Sacramento Gr. #77

Grievance Meeting held on 2/9/61. Agreement was that the Company would return her to her former classification of Clerk "C" and retroactively pay the difference between "C" and "D" Clerk wages from the date the grievance was filed. I agreed to one condition - the Company would have the right to give her the first Clerk "C" job in Sacramento providing they felt she was qualified.
