 LETTER DECISION
 PRE-REVIEW REFERRAL

Review Committee File No. 1406-76-10
Humboldt Division Grievance No. 19-13-76-13
Alleged Improper Assignment of Two
General Construction Mechanics

December 13, 1976

MR. W. J. EDDY, Company Member
Humboldt Division
Local Investigating Committee

MR. D. L. MITCHELL, Union Member
Humboldt Division
Local Investigating Committee

The above-subject grievance has been discussed by the Review Committee and is being returned to the Local Investigating Committee for settlement in accordance with the following:

Inasmuch as the Company submitted a proposal establishing a Radiation Monitor classification at Humboldt Bay Power Plant in general negotiations, the Review Committee is of the opinion that the issue in dispute will be resolved through collective bargaining, and the Local Investigating Committee should consider the issue of assigning General Construction Station Mechanics radiation and process monitor work closed. However, as to the wage question of the two named grievants, the Review Committee will retain jurisdiction until such time as an agreement is reached by the bargaining committees, and at that time a final disposition will be reached.

The Local Investigating Committee should so note the above-mentioned settlement and consider the grievance closed.
