ARTICLE V. PROMOTION

Any employee who is promoted to a position in a class with a higher salary range shall be placed in the step in the new higher range, which is at least a ten percent (10%) increase over the employee's current salary step. In the event that the top step in the new range is less than ten percent (10%), the employee will then be assigned to the top step on the new salary range.

ARTICLE VI. STANDBY

The following provisions and EOP 2.0 City Standby Policy apply to represented employees. The number of available employees assigned to serve the standby needs of the department determines the application of provision A below.

A. Employees assigned to standby duty shall be compensated per the following schedule:

Monday-Friday Standby	2 hours straight time rate per day

Weekly Standby	18 hours straight time rate per week

Exceptions to Appendix "X" may be made on prior written approval of the Department Head or designee for employees who are assigned to standby duty.

ARTICLE VII. WORKING OUT OF CLASS (Refer to Personnel Rules Section 3.07.080)

The principle for paying employees for performing higher level job responsibilities due to operational necessity is based on such considerations as: the employee's ability and qualifications to perform at a higher level, whether the employee would be required to perform only routine or a significant range of the higher job responsibilities, whether the lower level position is in direct line and job scope of the higher class, and the length of time necessary for an employee to perform in a higher class.

The purpose of compensating employees for performing work in a higher class is to establish a system by which employees will continuously receive a pay rate comparable to those job factors that establish pay for each class of work in City service. Authorization for an assignment to work in a higher class must be given by the employee's supervisor and, except under emergency circumstances, requires advance approval of the

department head, Human Resources Director and City Manager. The following conditions shall prevail as the definition and standards of compensation:

- A. Employees are required to work at least four (4) hours in the higher class to receive the higher class pay, except in classifications where employees are required to operate heavy equipment that is paid at a higher level; in such cases employees will be eligible for higher class pay after one (1) hour of continuous work.
- B. In the event that an employee is required to work in the higher class due to a call back, the employee shall receive out of class pay on an hour-for-hour basis with no minimum amount of time required to serve in the higher class.
- C. Compensation in excess of an employee's regular base salary rate shall not be authorized for work in a higher class unless such employee is in all respects qualified to perform in the higher class and required to perform at least a substantial range of the more essential tasks of the higher class. Additionally, if an employee is temporarily assigned to perform work that is generally within the scope of their current class, but the work assignment is normally performed by a higher class due to the nature or scope of such work, then the temporarily assigned employee shall not receive additional compensation for performance of their normal and customary duties as prescribed by their regular classification.
- D. Employees assigned to work in a higher class, who are both qualified and required to perform at least a substantial range of the higher tasks, shall be compensated for the actual number of hours worked in the higher class as follows:

- 1. Compensation shall be five percent (5%) more than the employee's current salary rate in the lower class unless the difference between classifications is less than five percent (5%). In the event that the top step in the higher range is less than five percent (5%), the employee will be compensated at the top step in the higher class.

EXCEPTION: Employees assigned as a senior level worker or senior level technician shall be compensated ten percent (10%) more than the employee's current salary rate in the lower class.

- 2. For employees assigned to management classifications the compensation shall be ten percent (10%) more than the employee's current salary rate in the lower class. In the event that the top step in the higher range is less than ten percent (10%), the employee will be compensated at the top step in the higher class.
- 3. Work periods in higher class assignments shall not apply toward seniority or time-in-class considerations for layoff purposes as regards the higher class.
- 4. Temporary Acting Pay

An employee temporarily assigned in writing to an acting position in a classification with a higher salary range shall be compensated for the duration of the acting assignment by the payment of ten percent (10%) of the regular salary the employee received prior to the acting assignment, or the salary provided for in Step A of the higher classification, whichever is greater, but not to exceed top step of the higher classification for all time worked and any leave time paid. The higher classified position must be temporarily vacant due to a long-term absence of the incumbent or pending the filling of a vacant position. The temporary acting pay assignment shall be for a minimum of two full-time

Related classroom instruction as agreed to by the Joint Apprenticeship and Training Committee will be given the apprentices during regular working hours. The instructors will be selected from personnel qualified to instruct.

Each apprentice shall pursue related and supplemental theoretical studies of not less than approximately eighty (80) hours per year. This outside training shall be approved by the Joint Apprenticeship and Training Committee and shall be pursued on the apprentice's own time and without pay from the City.

H. Salary Step Increases.

Employees are eligible for a salary merit increase based on successful (70%) completion of the required testing for each step as outlined in the City of Roseville Apprentice Line Technician, Apprentice Substation Technician and Apprentice Metering Systems Technician Training Programs.

I. Probationary Period.

Employees in the Apprentice Line Technician and Apprentice Electric Metering Systems Technician classification remain on a probationary status that is in effect throughout their entire Apprenticeship Program, which shall not exceed forty two (42) months. Employees in the Apprentice Electric Substation Technician classification shall remain on a probation status throughout their entire Apprentice program, which shall not exceed fifty-four (54) months. In any case where the Apprentice fails to adhere to standards outlined in the Apprentice Line Technician Program, the employee will be rejected on probation and removed from the program. The City retains its sole discretion to determine whether an Apprentice completes probation.

The Union and City acknowledge and agree that the length of the probationary period under this Apprenticeship Program reflects the unique nature and required training and evaluation time for the classifications contemplated herein. As described in Roseville Municipal Code, Section 3.06.130, the probationary period is an intrinsic part and extension of the employee selection process during which the employee shall be considered in training and under careful observation and evaluation by supervisory personnel. Generally, this period will be utilized to train and evaluate the employee's effective adjustment to work tasks, conduct, observance of rules, attendance and job responsibilities, and to provide for the release of any probationary employee whose performance does not meet required standards of job progress or adaptation.

J. Reinstatement Rights.

Employees rejected on probation within the first year of the Apprenticeship Program shall be reinstated to the classification from which the employee was promoted if the employee held regular status in the lower level position with the exception of those employees promoted from the Electric Pre-Apprentice position. Employees who were promoted from an Electric Pre-Apprentice position to the Apprentice position or employees who were rejected on probation from the Apprenticeship program in year two or three will be considered to be released from City service without cause at the sole discretion of the City and do not have reinstatement rights to a previously held position within the City. Such release shall not be subject to any appeal. Written notification of release shall be provided to the probationer, and a copy filed with the Human Resources Director or a designee thereof. As negotiated between the Union and City, the provisions of this Amendment #1 to the parties' Memorandum of Understanding control, notwithstanding any other language contained in the City's Personnel Rules, including, but not limited to, Roseville Municipal Code, Title 3, Sections 3.06.140, 3.06.170, and 3.06.180.

K. Demotion.

Employees wishing to voluntarily withdraw from the Apprenticeship Program may request a voluntary demotion pursuant to City's Personnel Rules, Roseville Municipal Code, Title 3, Section 3.07.040.

ARTICLE X. UNION ORIENTATION

The City shall provide thirty minutes for the union's business representative to attend new hire orientation to meet with all new IBEW Local 1245 bargaining unit employees for the purpose of explaining union contract orientation and enrollment. The City will provide IBEW Local 1245 one week notice of new hire orientations that include IBEW Local 1245 employees.

City agrees to meet with IBEW Local 1245 during the term of the MOU to further explore alternate release time procedures.

ARTICLE XI. EDUCATIONAL REIMBURSEMENT

Employees may be reimbursed for the tuition and fees connected with job-related educational courses up to \$150.00 per course, not to exceed \$300.00 per year. The cost of books is not covered in this Agreement. The employee will submit the request for reimbursement to the supervisor, who will accept or reject the request. The request must be made before the class has been completed. The request will then be forwarded to the Human Resources Department, who will make the final decision to accept or reject the request. No payment will be made until the final proof of passing grade is submitted to the Human Resources Department. The City will maintain a maximum fund of \$6,000 to be administered by the Human Resources Department for educational reimbursement. Once the fund balance is depleted, no further reimbursements will be approved.

ARTICLE XII. ALCOHOL AND DRUG POLICY

The City and IBEW Local 1245 agree to continue enforcement of the Alcohol and Drug Policy as referenced in Appendix "Y".

In addition to the above-mentioned policy, all employees will be required to notify the City in writing of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

ARTICLE XIII. UNION RELEASE TIME REIMBURSEMENT

At the written request of the Union and upon approval by the applicable department head, designated union stewards may be granted up to four (4) days off per calendar year per steward of reimbursable leave time off to perform union business. Employees shall elect to utilize their accumulated leave time off bank, excluding sick leave, to receive their full regular base wages for the duration of the union leave time off. The leave time off is subject to approval by the employee's supervisor and shall not disrupt operations. The union may request to utilize an additional allotment of a total of 18 hours of reimbursable release time per calendar year for a steward(s) to attend union training sessions. The additional 18 hours may be designated for use to one steward or spread among multiple stewards.

Subsequently, upon written verification from the Union of the amount of time off taken by the employee for union business, the City shall invoice the Union for the total compensation cost of the employee's time off. Within thirty (30) calendar days of receiving the reimbursement payment from the Union for the employee's time off, the City shall reinstate all hours of accumulated leave used for union business to the employee's respective leave bank. While on union release time, the employee shall not be considered to be on City time and accordingly the City shall not incur any liability, including but not limited to workers' compensation and tort liability, arising out of the employee's performance of union business. The Union shall indemnify and hold

harmless the City, its officers, agents, employees, and volunteers, individually and collectively, from and against any and all claims, cost, suits, losses, demands, actions, judgments, damages, fees, liabilities, and proceeding of any nature whatsoever arising of, or related to, its adherence to this Article.

APPENDIX "Y" DRUG AND ALCOHOL POLICY

CITY OF ROSEVILLE ADMINISTRATIVE REGULATION

APPROVED:

ROB JENSEN, CITY MANAGER

Number: A. R. 2.08

Date Effective: December 31, 1988

Date Revised: June 3, 2016

SUBJECT: ALCOHOL AND DRUG ABUSE POLICY

I. Purpose

It is the intention of this policy to eliminate substance abuse and its effects in the workplace and to comply with the Federal Drug-Free Workplace Act of 1988 and the California Drug-Free Workplace Act of 1990 which require all agencies receiving grants from any federal or state agency to maintain and promote a drug-free workplace. While the City of Roseville has no intention of intruding into the private lives of its employees, involvement with drugs and alcohol can take its toll on job performance and employee health and safety. The City's concern is that employees are in a condition to perform their duties safely and efficiently, in the interests of their fellow workers and the public as well as themselves. The presence of drugs and alcohol in the workplace, and the influence of these substances on employees in the workplace, are inconsistent with this objective.

One of the goals of the City's drug-free workplace program is to encourage employees to voluntarily seek help with alcohol and/or drug problems. Employees who think they may have an alcohol or drug usage problem are urged to voluntarily seek confidential assistance from the City's Employee Assistance Program. While the City will be supportive of those who seek help voluntarily, the City will be equally firm in identifying and disciplining those who continue to be substance abusers and do not seek help.

Supervisors will be trained to recognize abusers and become involved in this control process. All employees will be given a copy of this policy and the City will conduct drug and alcohol awareness programs on a periodic basis.¹ Alcohol or drug abuse will not be tolerated, and disciplinary action, up to and including dismissal, will be used as necessary to achieve this goal.

This policy provides guidelines for the detection and deterrence of alcohol and drug abuse. It also outlines the responsibilities of City managers and employees. To that end the City will act to eliminate any substance abuse (alcohol, illegal drugs, prescription and over the counter drugs or any other substance which could impair an employee's ability to safely and effectively perform the functions of the particular job) which increases the potential for accidents, absenteeism, substandard performance, poor employee morale or damage to the City's reputation. All persons covered by this policy should be aware that violations of the policy may result in discipline, up to and including dismissal, or in not being hired.

¹ For more information on substance abuse issues, seek assistance from the City's EAP Provider or visit the Department of Health and Human Services' website at <http://ncadi.samhsa.gov/>.

In recognition of the public service responsibilities entrusted to the employees of the City of Roseville, and that drug and alcohol usage can hinder a person's ability to perform duties safely and effectively, the following policy against drug and alcohol abuse is hereby adopted by the City of Roseville.

II. Policy

It is City policy that employees: (i) shall not be under the influence of alcohol or illegal drugs while on duty; (ii) nor possess alcohol or illegal drugs while on City property, at work locations or in uniform; (iii) nor manufacture, sell or provide drugs or alcohol illegally to any other employee or to any person in the workplace; (iv) nor have their ability to work impaired as a result of the use of alcohol or drugs when reporting for work.

Use of over the counter or medically and legally prescribed medications and drugs is not per se a violation of this policy. However, reporting for duty when the employee should reasonably have known he/she would have been impaired by such medications and that the use of such medications may interfere with the employee's ability to safely and effectively perform their duties or operate City equipment can result in discipline, up to and, including dismissal. An employee on medication that reasonably believes may interfere with their safe and effective performance may seek a workplace accommodation; however, said employee must provide the City with sufficient medical information (e.g. Medical Care Provider Certification indicating limitations and/or restrictions) that would allow the City to make a determination if an accommodation can be granted. The employee may provide the sufficient medical information to the City by utilizing the Voluntary Disclosure of Medication Form (Attachment "E"). Employees have the option of supplying the sufficient medical information to either their supervisor or Human Resources. It is the employee's responsibility to remove themselves from service if they are unfit for duty.

The City reserves the right to search, without employee consent, all areas and property in which the City maintains control or joint control with the employee. Otherwise the City may notify the appropriate law enforcement agency that an employee may have illegal drugs in his or her possession or in an area not jointly or fully controlled by the City.²³⁴

Refusal to submit immediately to an alcohol and/or drug analysis when requested by City management or law enforcement personnel as a result of reasonable suspicion as defined in this policy, may constitute insubordination and be grounds for discipline up to and including dismissal.

Employees reasonably believed to be under the influence of alcohol or drugs shall be prevented from engaging in further work and shall be required to remain on the premises for a reasonable period of time until he or she can be safely transported from the work site.

² For RPOA only, the first sentence of this paragraph will read: The City reserves the right in accordance with the parameters of the Peace Officers Bill of Rights and federal and state law to search all areas and property in which the City maintains control or joint control with the employee.

³ For RFF only, the first sentence of this paragraph will read: The City reserves the right to search City owned or leased lockers and storage spaces in accordance with the parameters of the Firefighters Procedural Bill of Rights Act.

⁴ For RPA only, the first sentence of this paragraph will read: The City reserves the right in accordance with the parameters of the Memorandum of Understanding (MOU) between the City of Roseville and the RPA to search all areas and property in which the City maintains control or joint control with the employee.

The City is committed to providing reasonable accommodation to those employees whose drug or alcohol problem classifies them as disabled under federal and/or state law.

The City has established a voluntary Employee Assistance Program (EAP) to assist those employees who voluntarily seek help for alcohol or drug problems. Employees should contact their supervisors or an EAP counselor for additional information. This program is not available to applicants, probationary, temporary or seasonal employees, volunteers, interns or contractors and subcontractors performing work for the City.

III. Application

This policy, as it relates to providing a drug and alcohol free workplace, applies to all employees of the City (regular, probationary, temporary and seasonal), all applicants for positions with the City, all volunteers, interns, contractors and subcontractors performing work for the City. 7. Notify the Human Resources Director, in writing, of any criminal drug statute conviction for a violation occurring in the workplace, no later than five (5) calendar days after such conviction. The drug and/or alcohol test may test for any substance which could impair an employee's ability to effectively and safely perform the functions of his/her job, including, but not limited to, prescription medications, heroin, cocaine, morphine and its derivatives, P.C.P., methadone, barbiturates, amphetamines, and marijuana and other cannabinoids.

VIII. Results of Drug and/or Alcohol Analysis

A. Pre-employment Physicals

- i. A positive result from a drug and/or alcohol analysis may result in the applicant not being hired where the applicant's use of drugs and/or alcohol could affect requisite job standards, duties or responsibilities.
- ii. If a drug screen is positive at the pre-employment physical, the applicant must provide within twenty-four (24) hours of request, bona fide verification of a valid current prescription for the drug identified in the drug screen. If the prescription is not in the applicant's name, or the applicant does not provide acceptable verification, or if the drug is one that is likely to impair the applicant's ability to perform the job duties, the applicant may not be hired.
- iii. A positive result from a drug and/or alcohol analysis may, at the City's sole discretion, preclude an applicant from reapplying for a job with the City for a six (6) month time period.
- iv. If an applicant has a second diluted sample from a drug and/or alcohol screen during the same pre-employment testing process, the offer of employment may, at the City's sole discretion, be rescinded.

B. During Employment Physicals or Alcohol/Drug Tests

- i. A positive result from a drug and/or alcohol analysis may result in disciplinary action, up to and including dismissal. If the drug screen is positive, the employee must provide within twenty-four (24) hours of request, bona fide verification of a valid, current prescription for the drug identified in the drug screen or verification (i.e., a doctor's statement of medical necessity, anticipated duration and follow-up) of use of over the counter drugs that could produce the positive result. A prescription must be in the employee's name. If the employee does not provide acceptable verification of a valid prescription, or if the prescription is not in the employee's name, , the employee will be subject to disciplinary action, up to and including dismissal. Consideration may be given for additional time if the positive screening is on a weekend or holiday.
- ii. If an alcohol or drug test is positive for alcohol or drugs, the City shall conduct an investigation to gather all facts. The decision to discipline or terminate employment will be carried out in conformance with the Personnel Rules, specifically Chapters 3.07 and 3.16 of the Roseville Municipal Code.
- iii. A "Last Chance Agreement," may be used for an employee who agrees to seek help through the Employee Assistance Program.

IX. Confidentiality

Laboratory reports or test results shall not appear in an employee's general personnel folder. Information of this nature will be contained in a separate confidential medical folder that will be securely kept under the control of the Human Resources Director. Access to this information is limited to those who have a legitimate need to know in compliance with relevant laws and management policies.

Employee consent will be requested prior to disclosure of test results to anyone else. However, test results may be used in arbitration, administrative hearings and court cases arising as a result of the employee's drug and/or alcohol testing. If an employee is to be referred to a treatment facility for evaluation, test results will be made available to the employee's counselor. However, current law provides that the results of drug and/or alcohol testing will not be used against an employee in any criminal prosecution. In addition, test results will be disclosed if compelled by law or judicial or administrative process. The City is obligated by law to release testing history to subsequent employers when potential employment requires a commercial driver's license.

**PROCEDURE UTILIZED FOR THE DRUG SCREENING PROGRAM
INCLUDING CHAIN OF CUSTODY**

When an individual is directed, by the City, to a medical provider or designated representative for drug screening, the following procedure is observed:

City employees will be escorted to the medical provider or designated representative by a supervisor or other management personnel. The escort will remain at the testing location until testing is complete and verification that return to work is appropriate.

The drug screening procedure is explained to the individual and any questions answered by the medical provider or designated representative.

The individual is asked to sign a waiver giving permission to perform the drug screening (Attachment "B").

The medical provider or designated representative presents the individual with a special, empty, sterile container and the sanitary seal on the container is broken in front of the individual.

The individual is accompanied by a medical provider or designated representative, to a restroom to give the sample in order to prevent tampering with the sample.

The individual's name is placed on the container and it is placed in a special envelope with the individual's name written on the envelope.

The sample is left in a special secured place for the lab to pick up.

The lab picks up the sample and places it in another sterile container that only has a serial number on it so the individual is not identified by name.

The drug screening test is conducted on part of the sample, and if it tests positive, a second test, using a different methodology such as gas chromatography/mass spectrogram is conducted to confirm the positive result.

If the tests result in one positive and one negative result, the overall test is considered negative.

In the case of marijuana, the level of the positive test is set high enough to exclude people who have had casual encounter with the drug, such as being in a room where it is smoked by someone else. A test threshold (NAG/ML) for THC, which is the active substance in marijuana, is used as a cutoff, which ensures that someone who registers positive has indeed ingested such a substantial amount of that drug that it precludes inadvertent exposure.

The results of the test are forwarded to the medical provider or designated representative in a written report.

The test samples are retained by the lab for a period of six months so applicants appealing to the Personnel Board have the opportunity to have their sample retested if the Board so directs.

ADMINISTRATIVE REGULATION**

APPROVED:

ROB JENSEN, CITY MANAGER

Number: A. R. 2.08.1

Date Effective: December 31, 1988
(originally part of A.R. 2.08)

Date Revised: August 15, 2016

**SUBJECT: CONTROLLED SUBSTANCES AND ALCOHOL TESTING POLICY FOR
EMPLOYEES REQUIRED TO POSSESS A COMMERCIAL DRIVER'S
LICENSE OR PERFORM SAFETY SENSITIVE DUTIES**

I. Purpose

To establish an alcohol and controlled substance testing program with the primary purpose to deter Covered Employees from reporting to work or working under the influence of controlled substances and/or alcohol. The testing program meets the requirements of the Omnibus Transportation Testing Act (OTTA) of 1991, including pre-employment, random, post-accident, reasonable suspicion, return to work, and follow-up testing.

II. Policy

This policy shall serve as a supplement to the Alcohol and Drug Abuse Policy, Administrative Regulation 2.08, and incorporates the OTTA in its entirety and as amended. Employees covered under this policy are also covered under the City's Alcohol and Drug Abuse Policy (A.R. 2.08).

This policy complies with 49 CFR Part 40, as amended (Drug and Alcohol Testing Procedures), 49 CFR Part 382, as amended (Federal Motor Carrier Safety Administration or FMCSA), and 49 CFR Part 655, as amended (Federal Transit Administration or FTA). All drug and alcohol testing is conducted in accordance with these regulations.¹

This policy applies to every employee whose position requires the possession of a commercial driver's license (CDL), every employee performing a "safety-sensitive function" as defined herein, and any person applying for such positions.

It is the policy of the City of Roseville (hereinafter "City" and/or "City of Roseville") that employees covered by this policy shall not report to work or work under the influence of any controlled substances or alcohol. Employees covered under the OTTA shall participate in the City's Controlled Substances and Alcohol Testing Program. Covered Employees shall comply with the prohibitions listed in Section IV of this policy.

Job announcements for classifications of Covered Employees shall state that a pre-employment, controlled substance and alcohol test shall be administered. The Human Resources Director is the Designated Employer Representative (DER) for the City of Roseville and can answer questions related to this policy.

¹ 49 CFR Parts 40, 382, and 655 can be found on the Office of Drug & Alcohol Policy & Compliance's website <http://www.dot.gov/ost/odapc/index.html>.

The City of Roseville is committed to adhering to DOT standards regarding the collection of information relating to alcohol and controlled substances testing information. Such collection of information pertains to employment classifications where incumbents will be required to possess a commercial driver's license or perform safety-sensitive job duties.² A background check of prior drug and alcohol testing history shall be conducted prior to employment in a classification requiring a commercial driver's license. The history shall encompass the immediate prior three (3) years for FMCSA and two (2) years for FTA of the applicant's employment. Failure of an applicant to consent to this process will result in the applicant being denied employment into one of these classifications.

IV. Prohibited Conduct

Covered Employees shall not:

1. Report for duty or remain on duty anytime there is a quantifiable presence of a controlled substance in the body above the minimum thresholds defined in 49 CFR Part 40, as amended;
2. Report for duty or remain on duty with any alcohol concentration of greater than 0.04 regardless of when the alcohol was consumed;
3. Report for duty or remain on duty after notification by City that City has become aware of alcohol consumption by employee within four (4) hours of performing a safety-sensitive function;
4. Possess alcohol or illegal drugs in the workplace;
5. Consume alcohol, including medications or food containing alcohol, within four (4) hours of scheduled reporting for duty to perform safety-sensitive functions;
6. Consume alcohol within eight (8) hours after an accident or until completion of a post-accident alcohol test, whichever occurs first;
7. Refuse to submit to a post-accident, random, reasonable suspicion, return-to-duty, pre-employment or follow-up controlled substance and/or alcohol test.

V. Testing Procedures

All controlled substance and alcohol testing procedures will be conducted as required in 49 CFR Part 40, as amended and 49 CFR Part 382, as amended or 49 CFR Part 655, as amended, as applicable.

Alcohol tests will be conducted using a National Highway Traffic Safety Administration (NHTSA) approved Evidential Breath Testing device (EBT) under the guidance of a Breath Alcohol Technician (BAT). If the initial test indicates an alcohol concentration of 0.02 or greater, a second test will be performed to confirm the results of the initial test. The confirmatory test must occur using an EBT. The confirmatory test will be conducted at least fifteen (15) minutes after the completion of the initial test and before thirty (30) minutes expires.

Controlled substance testing will generally be performed by urinalysis. If a lab test is positive it shall be confirmed by the lab through chromatography/mass spectrometry analysis (GCMS) testing and a Medical Review Officer (MRO) will notify the employee of the test result and provide an opportunity for the employee to discuss the result. The employee may request a retest of the sample if the request is made within seventy-two (72) hours of initial contact with the MRO. The MRO will review and interpret each positive test result, including the employee's medical history and medical records.

The MRO will notify the DER of negative and verified positive drug test results. In all testing protocols described below, a negative dilute result with creatinine levels of 2-5 mg/dL will require an immediate recollection under direct observation. Negative dilute results with creatinine levels greater than 5 mg/dL will require an immediate recollection, however, a recollection under direct observation will not apply unless a basis for direct observation testing under DOT regulations, 49 CFR § 40.67, exists.

All testing will be conducted in a manner to assure a high degree of accuracy and reliability and using techniques, equipment and laboratory facilities which have been approved by the U.S. Department of Health and Human Services (DHHS).

Attachment "2" describes the method in which drug and alcohol tests will be conducted, how samples will be processed after the drug and/or alcohol test is completed, how a confirmatory test after an initial positive result will be performed, and conditions under which a direct observation test will be required.

A. Random Testing

Random tests for alcohol will be conducted annually on at least ten percent (10%) of Covered Employees, and for controlled substances on at least fifty percent (50%) of Covered Employees. The random selection of employees shall be made by a scientifically valid method. Each employee shall have an equal chance of being tested each time selections are made. All random tests shall be unannounced and unpredictable and, if selected, employees shall proceed to the test site immediately upon notification.

Testing rates will meet or exceed the minimal annual percentage rate set each year by the DOT Agency. If an employee is subject to random alcohol or controlled substances testing under the random alcohol or controlled substances testing rules of more than one DOT agency for the same employer, the employee shall be subject to random alcohol and/or controlled

substances testing at the annual percentage rate established for the calendar year by the DOT agency regulating more than fifty percent (50%) of the driver's function.⁵

A Covered Employee shall only be randomly tested for alcohol misuse while the employee is performing safety-sensitive functions; just before the employee is to perform safety sensitive functions; or just after the employee has ceased performing such functions. A Covered Employee may be randomly tested for prohibited drug use anytime while on duty.

A Covered Employee will be removed from the random testing pool any time the employee will not be available for testing during an entire testing period. A Covered Employee who is removed from a random testing pool for more than thirty (30) days (FMCSA) or ninety (90) days (FTA), must be given a pre-employment test, and have a verified negative test result, prior to engaging in a safety-sensitive function.

B. Reasonable Suspicion Testing

A Covered Employee shall be tested when the City has a reasonable suspicion that the employee has violated any of the prohibitions of Section IV above. Reasonable suspicion is based on an articulable, specific, and contemporaneous observation concerning the appearance, behavior, speech, body odor, or indications of the chronic use or withdrawal effects of alcohol and controlled substances. These observations shall be made by a trained supervisor immediately prior to, during, or immediately after the employee's workshift.

A Covered Employee shall only be tested under reasonable suspicion for alcohol misuse while the employee is performing safety-sensitive functions; just before the employee is to perform safety sensitive functions; or just after the employee has ceased performing such functions; however, reasonable suspicion testing for non-DOT activities may be conducted as described in A.R. 2.08. A Covered Employee may be tested under reasonable suspicion for prohibited drug use anytime while on duty.

A Covered Employee shall be tested for alcohol within two (2) hours from the observation, and under no circumstances later than eight (8) hours. Supervisors shall document the observations made, and if the testing is not completed within two (2) hours, such documentation shall include the cause for the delay. After a reasonable suspicion assessment/observation has been made, but if no test was given, a Covered Employee shall not be allowed to return to work until the employee has a negative test result or twenty-four (24) hours have elapsed since the assessment/observation.

A written record shall be made of the observations leading to an alcohol or controlled substances reasonable suspicion test, and signed by the supervisor or City official who made the observations, within twenty-four (24) hours of the observed behavior or before the results of the alcohol or controlled substances tests are released, whichever is earlier.

Reasonable suspicion testing is determined by the Agency (FMSCA or FTA) that regulates the function the employee was performing at the time of the event.

⁷ Refer to Attachment "1" to determine classifications for which both FMSCA and FTA regulations apply.

C. Post-Accident Testing

Post-accident testing is determined by the Agency (FMSCA or FTA) that regulates the function the employee was performing at the time of the event.⁶

FMSCA Procedures: Covered Employees shall be subject to post-accident alcohol and controlled substance testing as follows:

1. As soon as practicable following an accident involving a CMV operating on a public road in commerce, the Covered Employee(s) driving the vehicle(s) shall be tested for alcohol and controlled substances:
 - i. Who was performing safety-sensitive functions (per the OTTA) with respect to the vehicle, if the accident involved the loss of human life; or
 - ii. Who receives a citation within eight (8) hours of the accident under State or local law for a moving traffic violation arising from the accident, if the accident involved:
 - a. Bodily injury to any person who, as a result of the injury, immediately receives medical treatment away from the scene of the accident;
 - or
 - b. One or more motor vehicles incurring disabling damage as a result of the accident, requiring the motor vehicle to be transported away from the scene by a tow truck or other motor vehicle.

The following table notes when a post-accident test is required to be conducted under FMCSA:

Type of accident involved	Citation issued to the CMV driver	Test on driver must be performed by employer
i. Human fatality	YES	YES
	NO	YES
ii. Bodily injury with immediate medical treatment away from the scene	YES	YES
	NO	NO
iii. Disabling damage to any motor vehicle requiring tow away	YES	YES
	NO	NO

A Covered Employee shall remain readily available for testing after an accident until a test(s) is completed, or until two (2) hours after the time period set forth below has expired. A Covered Employee shall not consume any alcohol for a period of eight (8) hours following an accident or until he/she undergoes a post-accident test, which ever comes first. If an alcohol test required by this section is not administered within two (2) hours following the accident, the supervisor shall prepare and maintain on file a record stating the reasons the test was not promptly administered. If a test required by this section is not administered within eight (8) hours following the accident, attempts to administer an alcohol test shall cease and the supervisor shall prepare a record stating the reasons the alcohol test was not administered.

⁶ Refer to Attachment "1" to determine classifications for which both FMSCA and FTA regulations apply.

This documentation shall be submitted to Human Resources for record-keeping purposes. Records shall be submitted to FMCSA upon request.

If a controlled substance test required by this section is not administered within thirty-two (32) hours following the accident, attempts to administer a controlled substance test shall cease and the supervisor shall prepare a record stating the reasons the controlled substance test was not administered. This documentation shall be submitted to Human Resources for record-keeping purposes. Records shall be submitted to FMCSA upon request.

Failure of the Covered Employee to remain available for testing, as set forth above, constitutes a refusal.

Nothing in this policy is intended to delay obtaining medical treatment after the accident, or to prohibit a Covered Employee from leaving the scene of the accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary medical care. An accident that does not meet the definition of "Accident" in this policy may still result in reasonable suspicion testing of Covered Employee(s) if the criteria for such testing as outlined in this policy or that which is stated in A.R. 2.08 is met.

FTA Procedures: Covered Employees shall be subject to post-accident alcohol and controlled substances testing as follows:

1. Fatal Accidents: As soon as possible following an accident involving the loss of human life, DOT drug and alcohol tests must be conducted on all surviving Covered Employees operating the public transportation vehicle at the time of the accident. In addition, any other Covered Employee whose performance could have contributed to the accident, as determined by the City using the best information available at the time of the decision, must be tested.
2. Non-Fatal Accidents: Post-accident testing is required if one of the following conditions is met:
 - i. An accident involving a public transportation vehicle which results in injuries requiring immediate medical treatment away from the scene, and the Covered Employee operating the public transportation vehicle at the time of the accident contributed to the accident; or
 - ii. One or more vehicles receive disabling damage have to be towed from the scene, and the Covered Employee operating the public transportation vehicle at the time of the accident contributed to the accident;
 - iii. An accident in which the public transportation vehicle involved is a bus, electric bus, van, or automobile, one or more vehicles (including non-FTA funded vehicles) incurs disabling damage as the result of the accident and such vehicle or vehicles are transported away from the scene by a tow truck or other vehicle.

In addition, any other Covered Employee (such as a mechanic or dispatcher) whose performance could have contributed to the accident, as determined by the City using the best information available at the time of the decision, will be tested.

The following table notes when a post-accident test is required to be conducted under FTA:

Type of accident involved	Covered Employee contributed to accident	Test on driver and any other Covered Employee whose performance could have contributed to the accident must be performed by employer
i. Human fatality	YES	YES – On all surviving Covered Employees
	NO	YES – On all surviving Covered Employees
ii. Bodily injury with immediate medical treatment away from the scene	YES	YES
	NO	NO
iii. Disabling damage to any motor vehicle requiring tow away	YES	YES
	NO	NO

A Covered Employee shall remain readily available for testing after an accident until a test(s) is completed, or until two (2) hours after the time period set forth below has expired. A Covered Employee shall not consume any alcohol for a period of eight (8) hours following an accident or until he/she undergoes a post-accident test, which ever comes first. If an alcohol test required by this section is not administered within two (2) hours following the accident, the supervisor shall prepare and maintain on file a record stating the reasons the test was not promptly administered. If a test required by this section is not administered within eight (8) hours following the accident, attempts to administer an alcohol test shall cease and the supervisor shall prepare a record stating the reasons the alcohol test was not administered. This documentation shall be submitted to Human Resources for record-keeping purposes. Records shall be submitted to FTA upon request.

If a controlled substance test required by this section is not administered within thirty-two (32) hours following the accident, attempts to administer a controlled substance test shall cease and the supervisor shall prepare a record stating the reasons the controlled substance test was not administered. This documentation shall be submitted to Human Resources for record-keeping purposes. Records shall be submitted to FTA upon request.

Failure of the Covered Employee to remain available for testing, as set forth above, constitutes a refusal.

Nothing in this policy is intended to delay obtaining medical treatment after the accident, or to prohibit a Covered Employee from leaving the scene of the accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary medical care. Should it be necessary for a Covered Employee to leave the scene of the accident prior to testing, the employee must notify the City of his/her location; refusal to do so may be deemed by the City as a refusal to submit to testing. An accident that does not meet the definition of "Accident" in this policy may still result in reasonable suspicion testing of Covered Employee(s) if the criteria for such testing as outlined in this policy or that which is stated in A.R. 2.08 is met.

D. Pre-Employment Testing

An applicant seeking a position which requires, as a condition of employment, the operation, driving, or maintenance of a CMV, and possession of a commercial driver's license shall be tested for alcohol and controlled substances upon a contingent offer of employment. An applicant shall not be hired unless the test results are negative.

A current employee applying for, and who does not currently hold, a position in which the employee is required, as a condition of employment, to operate, drive, or maintain a CMV and possess a commercial driver's license shall be tested for alcohol and controlled substances. The employee shall not be appointed unless the test results are negative.

A current employee who fails a pre-employment test will be referred to Human Resources for evaluation pursuant to this policy, the City's Drug and Alcohol Abuse Policy (A.R. 2.08) and applicable departmental policies.

A Covered Employee who is removed from a random testing pool for more than thirty (30) days (FMSCA) or ninety (90) days (FTA), must be given a pre-employment test, and have a verified negative test result, prior to engaging in a safety-sensitive function.

Cancellation of a pre-employment drug or alcohol test does not eliminate the requirement that a current employee (as required by this section) or applicant must take a drug and alcohol test with a verified negative result.

If during a background check of prior drug and alcohol testing history it is discovered that a Covered Employee or applicant has previously failed or refused a pre-employment drug or alcohol test administered by another employer, the Covered Employee or applicant must provide proof of having successfully completed a referral, evaluation and treatment plan prior to engaging in a safety-sensitive function.

E. Return to Duty Testing

No Covered Employee shall return to duty after engaging in conduct prohibited by Section IV of this policy without evaluation by a Substance Abuse Professional (SAP), participation in any treatment program prescribed, and successfully passing a controlled substance and/or alcohol test. A Covered Employee must have a verified negative drug result and/or alcohol test result of less than 0.02 to return to a safety-sensitive function. Test is conducted under direct observation.

F. Follow-up Testing

A Covered Employee who has been referred to a SAP pursuant to this policy shall be subject to unannounced controlled substance and/or alcohol testing as directed by the SAP. There shall be at least six (6) tests within the first twelve (12) months following return to duty. The period for follow-up testing shall not exceed five (5) years. Follow-up testing is separate from and, in addition to, the random testing process. Test is conducted under direct observation.

V. Confidentiality

Reporting of test results shall be consistent with the requirements of 49 CFR Part 40, as amended. Test results will be forwarded to the DER and maintained in confidential medical files for record-keeping purposes.

VI. Non-compliance with Policy

A Covered Employee with a confirmed alcohol concentration of 0.02 but less than 0.04 will be removed from his/her position for at least twenty-four (24) hours following the administration of the test.

A Covered Employee with a positive test result for a controlled substance(s) or alcohol (concentration of 0.04 or greater) or a refusal to test shall be considered in violation of this policy and shall:

1. Be immediately relieved of duty;
2. Be referred to, and submit to an examination by a SAP;
3. At the employee's expense, undergo treatment as indicated by the SAP;
4. Before returning to work, take a return-to-duty controlled substance test with a negative result and/or alcohol test with a result of less than 0.02; and
5. Be subject to follow-up controlled substance and/or alcohol testing.

Refusal to submit to any required test shall be deemed a positive test result. A Covered Employee who refuses to comply with a test, or who attempts to falsify test results through tampering, contamination, adulteration, or substitution shall be removed from duty, and is subject to disciplinary action, up to and including termination. In addition, a Covered Employee who violates this policy may be liable for penalties as provided in federal statute.

PROCEDURES UTILIZED FOR THE DRUG SCREENING PROGRAM

When an individual is directed, by the City, to the medical provider or designated representative for drug screening, the following procedure is observed:

1. City employees will be escorted to the medical provider or designated representative by a supervisor or other management personnel. The designee will remain at the testing location until testing is complete and verification that return to work is appropriate.
2. The screening procedure will be explained to the individual, paperwork completed, and any questions answered by the medical provider or designated representative.
3. The individual will be asked to show a photo identification.
4. The individual will need to remove outer clothing (i.e., jackets) and empty pockets. Belongings will be secured and returned to the individual after specimen collection.
5. The individual will be asked to wash hands thoroughly.
6. The medical provider or designated representative will provide the individual with an empty, sterile split testing container and the seal on the container will be broken in front of the individual.
7. The individual will be accompanied by the medical provider or designated representative to a restroom to give the sample in order to prevent tampering with the sample.
8. The medical provider or designated representative will enter the restroom once the individual has provided a specimen; will hand the individual a hand wipe; will check the temperature of the specimen (within four (4) minutes) and look for evidence of tampering.
9. The medical provider or designated representative shall, in the presence of the individual, pour the sample into two (2) separate containers. The first Container "A" must have a minimum of 30 ml and shall serve as the primary container. The second Container "B" must have a minimum of 15 ml and shall serve as the split sample.
10. The medical provider or designated representative will apply the seals to the specimen in the individual's presence and will reflect the date. The individual will provide their initials on both Specimen "A" and "B". The container will then be placed in a special envelope along with the completed Chain of Custody (COC) form once the collection is completed.
11. The samples will be secured until the lab picks them up or until the medical provider or designated representative arranges for shipping. Samples are picked up or shipped within twenty-four (24) hours of collection or during the next business day.
12. The lab will pick up the samples and place them in different sterile containers that only have a serial number on them so the individual is not identified by name.
13. The screening test is conducted on the primary sample, and if it tests positive, the individual is given the opportunity to have a second test conducted on the split sample.

14. In the case of marijuana, the level of the positive test is set high enough to exclude people who have had a casual encounter with the drug, such as being in a room where it is smoked by someone else. A test threshold (NAG/ML) for THC, which is the active substance in marijuana, is used as a cutoff, which ensures that someone who registers positive has indeed ingested such a substantial amount of that drug that it precludes inadvertent exposure.
15. The result of the test(s) are forwarded to the DER in a written report by the MRO.
16. The test samples are retained by the lab for a period of one (1) year so employees appealing a disciplinary action to the Personnel Board have the opportunity to have their sample retested if the Board so directs.

PROCEDURES UTILIZED FOR THE ALCOHOL SCREENING PROGRAM

When an individual is directed, by the City, to the medical provider for alcohol screening, the following procedure is observed:

1. City employees will be escorted to the medical provider or designated representative by a supervisor or other management personnel. The designee will remain at the testing location until testing is complete and verification that return to work is appropriate.
2. Breath alcohol testing is conducted by a Breath Alcohol Technician (BAT).
3. The screening procedure will be explained to the individual, paperwork completed, and any questions answered by the BAT.
4. The individual will be asked to show a photo identification.
5. The individual will be asked to sign the Alcohol Testing Form (ATF) and verify the identification information on the ATF.
6. The BAT will attach an individually sealed mouthpiece to the Breathalyzer in the individual's view and explain the process. An air blank of .000 is conducted which offers the individual assurance that there is no residual alcohol in the air that could affect the test.
7. The BAT obtains a reading and prints out the results. The BAT verifies with the individual that the results on the EBT match the printout. Both the BAT and the individual sign the printout. Copies of the printout are distributed to the DER, the employee, and the BAT retains a copy.
8. If the BAT obtains a reading of 0.02 or higher on the screening test, a second confirmation test will be conducted. If the confirmation test reads 0.02 or higher the DER is contacted immediately.

PROCEDURES UTILIZED FOR THE DIRECT OBSERVATION TESTING PROGRAM

Consistent with 49 CFR Part 40, as amended, collection under direct observation (by a person of the same gender) with no advance notice will occur if:

1. The employee attempts to tamper with his/her specimen at the collection site.
 - a. The specimen temperature is outside the acceptable range;
 - b. The specimen shows signs of tampering (unusual color, odor, characteristic); or
 - c. The collector finds an item in the employee's pockets or wallet which appears to be brought into the site to contaminate a specimen, or the collector notes conduct suggesting tampering.
2. The Medical Review Officer (MRO) orders the direct observation because:
 - a. The employee has no legitimate medical reason for certain atypical laboratory results; or
 - b. The employee's positive or refusal (adulterated/substituted) test result had to be cancelled because the split specimen test could not be performed (for example, the split was not collected).
3. The test is a Follow-Up test or a Return-to-Duty test.
4. The MRO reported a negative dilute result with a creatinine concentration greater than or equal to 2 mg/dL but less than or equal to 5 mg/dL.

Failure of an employee to permit any part of the direct observation procedure constitutes a refusal to test.
