NV Energy is seeking Journeyman Lineman for several of our Northern Nevada locations. As a Journeyman Lineman, you will perform all classes of overhead and underground transmission and distribution line work and the construction, erection and maintenance of substations while working in a crew environment. Candidates, through training and experience, are required to demonstrate their knowledge of underground circuits, substations, and apparatus to test, maintain, and install duct line, cable, conduits, risers, Company-owned customer outdoor lighting equipment, circuit breakers, transformers, and associated equipment, substation equipment, and circuits.

Northern Nevada communities still boast small town values and size while offering world class amenities, entertainment, arts and cultural events and adventures in the great outdoors including golfing, big game hunting, fishing, mountain and motocross biking and much more!

Whether you are a sports enthusiast or an outdoor adventurer, communities in Northern Nevada offer you the quality of life worth living.
