Dear Mr. Dean:

This letter and its attachments are the table agreement reached by the Company's Negotiating Committee and the Union's Negotiating Committee with respect to the IBEW Physical Agreement and the Benefits Agreement, herein referred to as the Physical Table Agreement (PTA).

Ratification Vote

The PTA will be voted on by the IBEW Physical represented employees. Implementation of all items in this document, including the General Wage Increase (GWI), working conditions and benefits changes will not occur until this PTA is ratified.

Term and Effective Date

The term of the PTA will commence on the date of ratification and end December 31, 2028.

The effective dates for the changes made in this PTA are as noted herein.

Wages

Employees will receive a five percent (5.0%) general wage increase using normal rounding effective the first pay period after the ratification date. If this agreement is ratified on the first vote, employees who are on the active payroll on the ratification date of the agreement will receive an additional payment equal to the amount they would have received if a five percent (5.0%) general wage increase had been implemented on January 1, 2026, as soon as administratively feasible. This payment will be included in covered compensation for the purposes of the Savings Fund Plan and Retirement Plan for employees who retired in 2026 and will not be included for any other benefit plan purposes. The five percent (5.0%) general wage increase for 2026 will be included in wage rates before applying the five percent (5.0%) general wage increase for 2027.

Employees who have retired on or after February 1, 2026, will receive a retroactive pay increase and pension recalculation for wages earned from January 1, 2026, to the ratification date or their retirement date, whichever is earlier as soon as administratively feasible.

In addition, the Company will grant a general wage increase using normal rounding of five percent (5.0%) effective January 1, 2027, and five percent (5.0%) effective January 1, 2028.

Ratification Bonus

TITLE 111. VACATIONS

111.1 DEFINITIONS

- (a) **Eligibility:** The provisions of this Title apply only to regular employees.
- (b) **A Regular Employee** is an employee who has fulfilled the applicable requirements of Section 106.5 of this Agreement.
- (c) **Earned Vacation Allowance** is the number of paid vacation hours which an employee has earned **may accrue** in the a calendar year. The number of paid vacation hours will be determined by the straight-time hours worked in the calendar year and years of employment. An employee may not have **accrue** more vacation hours than twice their annual accrual rate in their vacation **allowance provided in Section 111.2.** ~~account as of December 31. Excess vacation hours will be paid annually by the end of February beginning in February 2010, based on excess vacation as of December 31 of the prior year and will be paid at the current rate of pay. (Amended 1-1-09 XX-XX-26)~~

1. ***From January 1, 2026, to December 31, 2027, employees will accrue vacation in accordance with the schedule outlined in Title 111.2(b) even if that accrual exceeds the maximum number of paid vacation hours allowed above (twice their annual accrual rate). Effective January 1, 2028, employees may no longer accrue vacation in excess of the maximum allowed accrual rate and will be subject to twice their annual rate accrual limit. For 2027, excess vacation hours exceeding the maximum accrual rate will be paid by the end of February 2028 based on the excess vacation as of December 31, 2027. No other excess vacation will be paid unless in accordance with Section 111.1(4)(a). (Added XX-XX-26)***
2. ***Vacation hours are accrued each pay period per Section 111.2. The vacation accrued in a pay period is calculated by multiplying the employee's straight time hours by the appropriate vacation accrual rate based on the employee's length of service. (Added XX-XX-26)***
3. ***Accrued vacation hours are shown as whole hours on each pay statement. If an employee accrues a fractional hour in a pay period, then the fractional hour carries over to the next pay period until one hour is accrued and reflected on the employee's pay statement.***

Straight time includes but it is not limited to the statuses listed below:

- ***Vacation***
 - ***Sick and Family Sick Leave***
 - ***Paid Holidays***
 - ***Training***
 - ***Jury/Witness Duty***
 - ***Bereavement Leave***
 - ***Floating Holiday***
 - ***Rest Periods***
 - ***Time off with permission with pay (paid admin leave)***
 - ***Time off with Permission without Pay (i.e., GC inclement weather)***
 - ***Workers' Compensation***
 - ***First 10 days of Short-Term Disability***
(Added XX-XX-26)
4. ***The maximum allowed accrued vacation (accrual cap) is equal to twice the annual accrual rate for an employee. It is the employee's responsibility to monitor, request and use vacation to avoid reaching the accrual cap. Beginning January 1, 2028, employees may request vacation to avoid exceeding their accrual cap by following one of the two options below. This Section does***

not replace the Vacation Scheduling process delineated in Section 111.13. Company will make vacation accrual information available to employees electronically (i.e., currently PGE@Work for Me) and will send email notifications at the end of each quarter which will include the employee's current vacation accrual balance. (Added XX-XX-26)

- a. Submit a written request for vacation to the Company at least 60 days prior to reaching the accrual cap. Absent operational needs, the Company will accommodate employee preferences for vacation requests. If the Company denies the employee's requested vacation dates and the employee and Company cannot agree on alternative vacation dates within the 60-day period requested by the employee, the Company will pay the employee the amount of vacation requested, not to exceed 80 hours. Any approved vacation payout will be paid at the current rate of pay when the vacation request was not approved. An employee may only receive the option provided in this paragraph once every twelve (12) months from the last date the employee's vacation was approved or paid out, whichever is later. (Added XX-XX-26)**
- b. Employees who do not make a 60-day written request, are granted their vacation request per (4)(a) above, or received a vacation payout per (4)(a) above in the prior twelve (12) month period, may still request vacation to avoid the accrual cap. Absent operational needs, the Company will accommodate employee preferences for vacation requests. If the Company denies the employee's requested vacation dates and the employee and Company cannot agree on alternative vacation dates, the employee will not be eligible for a payout option and will cease accruing vacation hours once the accrual cap is reached. The employee may continue to request vacation and will resume accruing vacation once their vacation balance drops below the accrual cap. (Added XX-XX-26)**

5. Notes regarding the Vacation Accrual Cap: (Added XX-XX-26)

- Floating Holiday conversions at the beginning of the year (Section 103.3) may temporarily cause an employee's balance to exceed the accrual cap. In this circumstance, the overall cap will increase only by the number of floating holiday hours credited to the employee's vacation balance. The employee will not accrue additional vacation hours until their balance falls back below the accrual cap. (Added XX-XX-26)**
- Holiday in-lieu hours (Section 103.6) and Vacation Bonus hours (Section 111.3 and LA 07-44) are not included in an employee's vacation balance and therefore do not affect the vacation accrual cap. (Added XX-XX-26)**
- Employees must use any Holiday-In-Lieu hours (Section 103.6) or Vacation Bonus hours (Section 111.3) before utilizing Vacation hours. (Added XX-XX-26)**

Unless so provided in the departmental Lines of Progression, the fact that a classification is considered as next lower to another in one department does not mean that the same job is next lower to the higher job in another department.

PACIFIC GAS AND ELECTRIC COMPANY
POSITIVE DISCIPLINE GUIDELINES

I. INTRODUCTION

It has been the policy of Pacific Gas and Electric Company to enhance and to improve work performance in all areas by means of clear communication and understanding of performance requirements by all employees. To this end, Company will utilize Positive Discipline to:

- 1. Improve communications between supervisors and employees.*
- 2. Improve knowledge and understanding by individuals of performance expectations.*
- 3. Communicate the expectation of change and improvement through coaching and counseling.*

In order to ensure that customers are served effectively, and Company business is conducted properly and efficiently, employees must meet certain standards of performance and perform their jobs in a safe and effective manner. Supervision is responsible for establishing employee awareness of their job requirements, and employees, in turn, are responsible for meeting these standards and expectations. Positive Discipline is a system that emphasizes an individual's responsibility for managing their performance and behavior. It focuses on communicating an expectation of change and improvement in a personal, adult, non-threatening way; while at the same time, maintaining concern for the seriousness of the situation. Key aspects of this system include recognizing and encouraging good performance, correcting performance problems through coaching and counseling, and building commitment to effective work standards and safe work practices.

If an employee has a conduct, attendance or work performance problem, disciplinary action may be necessary to correct the situation. Positive Discipline is designed to provide the opportunity to correct deficient performance and build commitment (not merely compliance) to expected performance in a manner that is fair and equitable to all employees. Each step is a reminder of expected performance, stressing decision-making and individual responsibility, not punishment.

The Positive Discipline Program applies to all regular employees. It does not apply to probationary employees. The performance of probationary employees shall continue to be monitored utilizing performance reviews and counseling. The Employee Assistance Program will continue to play a very important role and should be utilized when appropriate.

The Personnel File refers to the Employee Records that are kept by the Company that include Positive Discipline as well as other employment related documents. The Employee Performance Record refers to the form which is only used by leaders to record and deactivate Positive Discipline.

II. THE POSITIVE DISCIPLINE SYSTEM

A. Coaching and Counseling

Coaching/counseling is the expected method for the supervisor to inform an employee about a problem in the areas of work performance, conduct or attendance. The objective of performance coaching/counseling is to help the employee recognize that a problem exists and to develop effective solutions to it. Since it is the supervisor's approach to a performance problem that often brings about the employee's decision to change behavior, it is critical that the supervisor be prepared. Coaching/counseling is intended to be a

deliberation and discussion between the supervisor and employee. The supervisor will provide either a copy of his/her notes of the conversation, a copy of the Employee Performance Record, or a letter documenting the basic conversation. Any of these may be sent electronically but should note the conversation as a Coaching & Counseling. Normally, performance problems can be resolved at this step. Coaching/counseling memos or notes kept in the supervisor's operating file should be deactivated in the same manner as oral reminders (Section VI.A). If a bargaining-unit employee requests a shop steward prior to or during coaching/counseling, such request shall be granted.

B. Positive Discipline Steps

When an employee fails to respond to counseling or a single incident occurs which is serious enough to warrant a formal step of discipline, the supervisor will have several options, depending on the seriousness of the performance problem. These options or steps of the Positive Discipline system are:

NOTE: ALL BARGAINING UNIT EMPLOYEES ARE ENTITLED TO APPROPRIATE UNION REPRESENTATION DURING ANY STEP OF POSITIVE DISCIPLINE.

STEP ONE - ORAL REMINDER

1. Application

The supervisor discusses the conduct, attendance or work performance problem with the employee in a private meeting. The supervisor reminds the employee of the importance of commitment to follow work rules and Company standards. In this problem-solving discussion, the supervisor informs the employee that this is the first step of the discipline process and restates the employee's need to live up to his/her commitment. The meeting closes with the supervisor expressing confidence in the employee's ability to change.

2. Documentation

- (a) The supervisor will prepare a letter documenting the basic conversation, date it and upload it to the personnel file. It should contain the exact performance problem, the date of any coaching/counseling, what offense caused the Oral Reminder, the employee's commitment and need to change in the future and whether further steps of Positive Discipline could follow.*
- (b) The original copy of the letter is given to the employee.*
- (c) The supervisor will also make a notation of this discussion on the Electronic Employee Performance Record (Attachment 1).*
- (d) An Oral Reminder is active for six (6) months.*

STEP TWO - WRITTEN REMINDER

A Written Reminder is a formal conversation between a supervisor and employee about a continued or serious performance problem. The conversation is followed by the supervisor's letter to the employee summarizing the conversation and the employee's commitment to change his/her behavior. It is the second step of the Positive Discipline System.

1. Application

This step is applied when:

- *An employee's commitment to improve is not met within the six (6) month active time period for an Oral Reminder; or*
- *An employee commits a serious offense whether or not any previous disciplinary action has been taken.*

2. Documentation

- (a) *After the conversation with the employee, the supervisor will then write a letter to the employee summarizing the discussion. It should contain the exact performance problem, the date of any Coaching/Counseling and/or Oral Reminders, what offense caused the Written Reminder, the employee's commitment and need to change in the future and whether further steps of Positive Discipline could follow.*
- (b) *The original copy of the letter is given to the employee. The immediate supervisor uploads the letter to the employee's Personnel file.*
- (c) *The supervisor will make a notation of this discussion on the Employee Performance Record. (Attachment 1)*
- (d) *The Written Reminder is active for twelve (12) months.*

STEP THREE - DECISION MAKING LEAVE (DML)

The DML is the third and final step of the Positive Discipline System. It consists of a discussion between the supervisor and the employee about a very serious performance problem. The discussion is followed by the employee being placed on DML the following workday with pay to decide whether the employee wants and is able to continue to work for PG&E by following all the rules and performing in a fully satisfactory manner.

The employee's decision is reported to his/her supervisor the workday after the DML. It is an extremely serious step since, in all probability, the employee will be discharged if the employee does not live up to the commitment to meet all Company work rules and standards during the next twelve (12) months, the active period of the DML, except as provided in Section III.B.

Because the DML is a total performance decision by the employee, there is only one active DML allowed.

1. Application

This step is applied when:

- *An employee's commitment to improve is not met during the twelve (12) month active time period for a written reminder; or*
- *An employee commits a very serious offense whether or not previous discipline has taken place.*

2. Documentation

- (a) *Notes are to be written covering the key points of the conversation. The exact dates and offenses shall be included. The supervisor should document the topics covered during the meeting including specific violations and/or performance, attendance, or conduct issues giving rise to the DML. The employee's response should be included.*

- (b) *When the employee returns from the Decision Making Leave, the employee will be given a letter summarizing the Decision Making Leave incident and the employee's decision. This letter should be written by the supervisor using the notes mentioned in (a) above. The letter will advise the employee that termination could follow should they fail to live up to their commitment to maintain total performance and abide by all Company rules.*
- (c) *The original copy of the letter is given to the employee. The immediate supervisor uploads a copy to the employees Personnel File.*
- (d) *The supervisor will also make a notation of this discussion on the Employee's Performance Record. (Attachment 1).*
- (e) *A DML is active for twelve (12) months.*

In the event of an employee at a discipline step is placed on an approved leave of absence or is on the Compensation Payroll in excess of ten consecutive workdays, the active periods referred to above will be suspended until the employee returns to the active payroll. However, if an employee is off the active payroll in excess of twelve consecutive months, any discipline will be deactivated upon his/her return to the active payroll.

C. Reviewing Performance Record

The employee shall have access to view their Employee Performance Record currently stored in the "About Me" PG&E Intranet Page.

The employee shall have access to their employee Personnel File by a request to the Company. The request should be made in accordance with the Company standard.

III. TERMINATION -

- A. *Termination occurs when Positive Discipline has failed to bring about a positive change in an employee's behavior, such as another disciplinary problem occurring within the twelve (12) month active duration of a DML. Termination may also occur in those few instances when a single offense of such major consequence is committed that the employee forfeits his/her right to the Positive Discipline process, such as:*

- Theft (See Review Committee Decisions 1451 and 1452)*
- Striking a member of the public or another employee*
- Energy Diversion*
- Curb reading of meters*
- Driving Under the Influence of Alcohol in a Company Vehicle or while on Company paid work or travel time (See R1-LA-25-21)*

- B. *Notwithstanding the foregoing, if a performance problem which normally would result in formal discipline occurs during an active DML, the Company shall consider mitigating factors (such as Company service, employment record, nature and seriousness of violation, etc.) before making a decision to discharge, all of which is subject to the provisions of the appropriate grievance procedure for bargaining unit employees. In addition, a summary of the decision not to terminate should be documented and placed in the employee's Personnel File and the employee should be given a copy of the summary.*

IV. ADMINISTRATIVE GUIDELINES

- A. Rule infractions are generally divided into three categories. These are (1) work performance, (2) conduct and (3) attendance. The maximum number of oral reminders that may be active at one time is three (3) and these must be in different categories. Should another performance problem occur in a category where there is already an active oral reminder, the discipline step must escalate to a higher level of seriousness, usually a written reminder. The maximum number of written reminders that may be active at one time is two (2) and these must be in different categories. Should another performance problem occur in a category where there is already an active written reminder, the discipline step must escalate to a DML.**

The above language refers to escalation to the appropriate disciplinary step once a decision to formally discipline has been made. In lieu of taking formal disciplinary action, the supervisor may opt to coach/counsel an employee, taking into consideration mitigating factors.

In addition, where appropriate, such as an employee who exhibits an inability to work in a classification that is not directly supervised, consideration for demotion should be made.

Placement of a bargaining unit employee at a Positive Discipline step or termination of a bargaining unit employee may be grieved by that employee's Union on the grounds that such action was without "just cause", the degree of discipline was too severe or there was disparity of treatment, pursuant to the provisions of the appropriate grievance procedure.

Under Positive Discipline, the time limits for filing a grievance commence on the date of the disciplinary discussion, unless the employee's receipt of the discussion documentation exceeds three working days. If receipt of such documentation exceeds three working days, the time limit for filing a grievance will be extended by an equivalent number of days.

Company and Union agree in Letter Agreement No. 88-109, that the Positive Discipline Guidelines do not supersede Subsections 102.4(c) of the Physical Agreement or 9.4 (c) of the Clerical Agreement.

Because the Decision Making Leave is a total performance decision on the employee's part, there is only one DML. Additionally, while the DML is active, no other formal steps of Positive Discipline may be administered, except as provided for in Section III.B.

- B. The following list, which is not intended to be all-inclusive, gives examples of rule violations and general categories they fall into:**

Attendance:

Absenteeism

Tardiness

Sick Leave Abuse (Positive Discipline will not circumvent or supersede sick leave abuse sections of any Labor Agreement)

Unavailability

Extended Lunches/Break Periods

No Call/No Show

Conduct:

Driving under the influence of Alcohol in a Company Vehicle or while on Company paid work or travel time (LA R1-25-21)
Violation of the Employee Conduct Standard
Carrying Firearms on Company Property or in Company Vehicle
Leaving Assigned Work Area/Location Without Permission
Insubordination: Refusal to Follow Supervisor's Instruction
Refusal to Work Overtime in an Emergency Situation
Fighting or Provoking a Fight on Company Property
Falsification of any Company Document or Record
Conducting Personal Business on Company Time Without Permission
Reporting a False Reason for an Absence
Congregating
Verbal and/or Sexual Harassment
Initiating, Encouraging or Participating in a Walk-Out or Work Slowdown
Allowing Guests on Restricted Company Property Without Permission

Work Performance:

Failure to Adhere to Safe Work Practices and Accident Prevention Rules
Unsatisfactory Work Performance (Quality/Quantity, Effort and/or Negligence
Backing or Automotive Accidents
Sleeping on the Job
Housekeeping
Excessive Time Away from Workstation

Note: For some types of performance problems caused by an ability deficiency, demotion to a lower classification may be the appropriate action rather than implementing any step of Positive Discipline.

- C. *Offenses in each of the three categories are normally assigned a level of severity. Their level of severity can be minor, serious or major in nature. As a general rule, the seriousness of the offense dictates which step of the Positive Discipline process would apply.*
- D. *The above list is not totally inclusive. In addition, Company Standards, Safety, and Procedural Rules, along with sound judgment and common sense should govern individual conduct and actions. Individual departments and locations also have rules and standards which must be adhered to or met.*

V. CRISIS SUSPENSION

As has been past practice, a crisis suspension should be used when an employee's inappropriate behavior is so serious immediate removal from the workplace is necessary because the employee's actions indicate that remaining on or returning to the job may be detrimental to the employee, fellow employees, customers, or the Company. The employee shall be required to leave Company property pending investigation. Some examples would be theft, insubordination, threat of violent action, destruction of Company property or reporting to work under the influence of alcohol or drugs. These situations will be handled in the following manner.

1. *If, upon completion of its investigation, Company finds that there is insufficient evidence to support the alleged misconduct, the employee will be placed back to*

work and will be paid for the investigatory time off.

2. *If, upon completion of its investigation, Company finds that there is sufficient evidence to support termination, the employee's employment will be terminated, and the investigatory time off will be without pay.*
3. *If, upon completion of its investigation, Company finds that there is sufficient evidence to support disciplinary action but not termination, the appropriate step of Positive Discipline will be administered, and the employee will be reimbursed for the investigatory time off without pay. However, should an employee be unfit for work or otherwise unavailable, the employee shall not be reimbursed for such time.*

VI. DEACTIVATION

A very important step of the Positive Discipline system, which recognizes improved performance, is the deactivation process. If an employee has maintained fully satisfactory performance during the active period of a disciplinary action and the employee's attendance, conduct, and/or performance improves, it is imperative that the supervisor acknowledge the improvement. The administrative process of deactivation is summarized below:

A. Oral Reminder

At the end of the six-month active time period, the immediate supervisor meets with the employee, informs the employee of the inactive status of the Oral Reminder and commends the employee for improved performance. The supervisor notes the inactive status on the Employee's Performance Record.

B. Written Reminder/DML

At the end of the 12-month active time period for the written reminder and the 12-month active time period for the DML, the supervisor initiates a letter advising the employee of the inactive status of the step, and commends the employee's improved performance. Copies are distributed to all who were previously copied on the written reminder or DML letters with the exception of the employee Personnel File. The supervisor also notes the inactive status on the Employee's Performance Record.

VII. RECOGNIZING GOOD PERFORMANCE

The supervisor is a very important member of the work group. Since the supervisor's job is to get work done through others, it is essential that energies be concentrated on helping employees be as successful as possible. What a supervisor expects of an employee and the way the employee is treated to a large extent determines that employee's performance. Good performance is a shared responsibility.

The supervisor has an opportunity to foster a working environment that is based on mutual respect and trust, a collaborative team effort that is mutually beneficial to the supervisor, the employee and the organization. Positive Discipline is intended not only to resolve performance problems, but also to focus on improvement in performance and recognize exceptional performance. Reinforcement of this type of behavior will help to ensure its continuation and should be used under the following circumstances:

- A. *When an employee's attendance, conduct and/or performance improves, it*

is imperative that the supervisor acknowledges the improvement in a way that encourages the employee to maintain the improvement. Such changes in behavior that are ignored often disappear.

B. When an employee deserves recognition and commendation for performance above and beyond the call of duty, such as:

- *Taking immediate action in a crisis or emergency.*
- *Developing a cost or work saving idea.*
- *Providing special training or assistance to other employees.*

C. When an employee deserves recognition and commendation for performing competently and diligently over a period of time. Examples would include:

- *Maintaining a good attendance record over a significant period of time.*
- *Maintaining a record of working safely.*
- *Maintaining a spirit of teamwork that is demonstrated through specific actions.*

In a discussion of this nature, the supervisor must refer to the specific improvement or incident with which the supervisor is pleased. The supervisor must be specific and sincere. These positive contacts should be noted on the employee's performance record. If the employee's performance is exceptional or the supervisor is deactivating a step of Positive Discipline, a letter to the employee should be prepared by the supervisor recognizing this exceptional or improved performance. A copy should also be placed in the employee's Personnel File, unless it is a deactivation memo/letter. This type of recognition can be highly successful in establishing and maintaining a motivating, productive work environment.

Subsequent Letter Agreements Regarding Positive Discipline

LA 88-109-PGE

Positive Discipline Guidelines do not prohibit grievance settlements that provide for reinstatement of discharged employees without back pay or with less than full back pay if that is what the equities of the situation call for.

LA 89-24-PGE

Under Positive Discipline, the time limits for filing a grievance commence on the date of the disciplinary discussion, unless the employee's receipt of the discussion documentation exceeds three working days. If receipt of such documentation exceeds three working days, the time limit for filing a grievance will be extended by an equivalent number of days.

LA 89-164-PGE

Moves "Failure to adhere to safe work practices and accident prevention rules" from the Conduct category to the Work Performance category.

LA 90-178-PGE

Moves “backing accidents” from Conduct category to Work Performance category.

Key Agreements**

The following are key Letter Agreements. Letter Agreements are amendments or additions to the Collective Bargaining Agreement that are negotiated by the parties outside of general negotiations. Unlike provisions in the Collective Bargaining Agreement, most of the Letter Agreements have specified cancellation procedures.

This list will be updated on a periodic basis. Before relying on a Letter Agreement, check with your respective PG&E Labor Representative or IBEW Business Representative to ensure it has not been modified or cancelled by the parties.

Exhibit X

The information below will be used to update revisions to Exhibit X.

During General Negotiations, PG&E considered several classifications for wage adjustment, in addition to General Wage Increases (GWI) as proposed by IBEW. The primary reasons for any agreed to wage adjustments included, but was not limited to, internal market conditions (i.e., classification retention, turnover rates, percentage of positions going through the unrestricted appointment process, number of days to fill vacancies, etc.), external market conditions (i.e., ability to recruit and retain, California Investor-Owned Utilities (IOU) pay comparisons, etc.), increased or additional job responsibilities/duties, or changes to a classification and/or Lines of Progression (LOP) (classification consolidation, classification creation, etc.).

1. The Parties agree the wage adjustments listed in the “Wage Adjustments” sheet of this file will be in addition to GWI.
 - a. The current wage rate listed in Column F refers to the 2025 Top Step (top wage rate) of the classification. If a classification receiving an adjustment has a wage progression or multiple wage steps, the adjustment (percentage increase) listed in Column H will be applied to all steps in the classification’s progression.
 - i. Example 1: Electric Crew Leader (50010191) will receive a 4.68% adjustment as listed in the “Wage Adjustments” sheet of this file. The classification has a progression which includes Start rate (\$77.19) and End 1 Year Rate (\$79.04). Both rates will be adjusted by receiving a 4.68% increase. In this example, the new rates will be Start rate (\$80.80) and End 1 Year Rate (\$82.74).
 - ii. Example 2: Electrician - DCPP (50073082) will receive a 4% adjustment as listed in the “Wage Adjustments” sheet of this file. The classification has a progression which includes Start rate (\$65.27), Rate 1 (\$68.55), Rate 2 (\$69.84), Rate 3 (\$71.81) based on the time regularly headquartered at DCPP. All four rates will be adjusted by receiving a 4% increase. In this example, the new rates will be Start rate (\$67.88), Rate 1 (\$71.29), Rate 2 (\$72.63), Rate 3 (\$74.68)
2. Where wage adjustments were agreed to, the parties intended to include all “same or higher” classifications in the adjusted LOP except where specifically omitted. For example, the parties agreed to raise Line Worker wages by 4%. The adjustment includes Division Line Worker, GC Line Worker, Troubleshooters, etcetera.
 - a. In some cases, classifications higher in a LOP (i.e. Electric Crew Leader) received a different wage adjustment than the base classification (i.e., Line Worker) with the intention of maintaining currently agreed to wage separation.
 - b. The parties agree to discuss and reconcile errors or omissions.
3. The parties agree that the final revision to Exhibit X will be jointly reviewed and agreed to by PG&E and IBEW prior to publication.
4. The parties agree to mutually work together to agree on any minor discrepancies due to rounding (plus/minus pennies) on an adjusted hourly wage if such issues arise.

5. The parties agree that the note in Exhibit X requiring Working Leaders to be paid 4% above the highest rate supervised will no longer apply to the following General Construction Gas Classifications.
 - a. Working Leader B – GC Gas In-Service (51517784)
 - b. Working Leader B – GC Gas (50251368)
 - c. Working Leader A – GC Gas (50251366)
 - d. Working Leader A – Gas In-Service Welding (51517786)
 - e. Working Leader – GC Gas (51781311)

6. The parties agree to create new titles for the GC Crew Leader A (50010180), Working Leader A – Non-Climbing (50251365) & Working Leader B – Non-Climbing (50251367) classifications that more accurately reflect the LOP for the GC Crew Leader and Working Leader classifications. In addition, the parties will reassign employees into the appropriate classification that corresponds to their LOP. The parties also agree that if the LOP is receiving a wage adjustment, the newly titled GC Crew Leader or Working Leader classification that corresponds to that LOP will receive the same wage adjustment. If the newly retitled classification corresponds to a LOP that is not receiving a wage adjustment, the new classification will maintain its current wage rate and receive the GWI only. This information is identified in the “Notes/Reason for Adjustment” column of the “Wage Adjustments” table.
 - a. Example: Working Leader B – GC Station (50251367) is used in Hydro, Substation, Diablo Canyon Power Plant, Electric GC Line, etcetera. The parties agreed to establish new titles to reflect the LOP of the Working Leader. If an incumbent employee is a Working Leader B – GC Station in Substation, they will be assigned to the newly titled “Substation Electrician Working Leader B – GC” classification and receive a 4% wage adjustment in addition to GWI consistent with their LOP. If an incumbent employee is a Working Leader B – GC Station in the Electric GC Line department, they will be assigned to the newly titled “Electric GC Working Leader B” classification and will retain the current wage rate of the Working Leader B – GC Station classification. They will receive only a GWI.

ACTIVE MEDICAL, DENTAL, VISION AGREEMENT AND RETIREE MEDICAL

ACTIVE MEDICAL

The Company and Union agree to modify the current medical plan in the following ways:

1. Effective January 1, 2027, introduce a High-Deductible Health Plan (HDHP)¹ with Health Saving Account (HSA) option with both Anthem and Kaiser. The HDHP option will have a 7.5% medical plan premium for full-time and part-time employees.
 - a. Provide company funded annual contributions to a HSA for all enrolled members who meet HSA eligibility requirements.
 - i. \$800 HSA contribution for single coverage
 - ii. \$1,600 HSA contribution for family coverage
 - iii. Members will also be eligible to make their own contributions to their HSA account
 - iv. Members may use HSA funds for any IRS eligible expenses.
 - c. Implement a Limited Purpose Health Reimbursement Arrangement (LPHRA) for those enrolled in the HDHP
 - i. Provide company funded \$500 annual contributions to LPHRA for all HDHP enrolled employees.
 - ii. Under IRS regulations, the LPHRA is limited to dental and vision expenses until the deductible is met. After the deductible is met, it may be used for all eligible medical expenses.
 - iii. Any accrued balances in an existing company funded Health Reimbursement Account (HRA) will be transferred to LPHRA.
 - d. Annual medical plan deductible for in-network services is \$1,700 (single) or \$3,400 (family).
 - e. Annual medical plan deductible for out-of-network services is \$3,400 (single) or \$6,800 (family).
 - f. Annual medical plan out-of-pocket maximum for in-network is \$3,400 (single) or \$6,800 (family).
 - g. Annual medical plan out-of-pocket maximum for out-of-network is \$6,800 (single) or \$13,600 (family).
 - h. Once the deductible has been met, coinsurance will be 20% for in-network services and 40% for out-of-network.
 - i. Once the deductible has been met, coinsurance for prescriptions will be 20%.

¹ Deductibles are subject to change yearly in accordance with IRS regulations.

2. Effective January 1, 2027, redesign the current Health Account Plan (HAP) option with both Anthem and Kaiser. The HAP plan option will have a 10% medical plan premium for full time and part time employees.
 - a. Remove yearly biometric health and tobacco screening requirement with Quest
 - b. Provide company funded annual contributions to Health Reimbursement Account (HRA) for all enrolled employees.
 - i. \$1,000 HRA contribution for single coverage
 - ii. \$2,000 HRA contribution for family coverage
 - iii. All funds in an HRA will remain available upon retirement (age 55 with 10 years of service) unless the participant opts out of coverage.
 - iv. In the event of an employee's death, HRA account balances will remain available to the covered surviving spouse, provided they continue PG&E sponsored coverage.
 - v. Members may use HRA funds for any IRS eligible expenses.
 - j. Annual medical plan deductible for in-network services will remain at \$1,000 (single) or \$2,000 (family).
 - k. Annual medical plan deductible for out-of-network services will be \$2,000 (single) or \$4,000 (family).

 - o. Laboratory testing performed at a Quest Diagnostics facility will be provided free of charge (Anthem HAP only).
 - p. Remove free OON preventive care coverage. It is only covered in full if performed In-Network. Standard OON cost shares will apply for OON preventive care (Anthem plans).

The following will be a Memorandum of Understanding (MOU) signed upon ratification of the agreement.

The Company and the union discussed the impact of January 1, 2027 changes to active medical plans for deductibles and out of pocket maximums when members utilize Out of Network (OON) providers. The intent of this Memorandum of Understanding (MOU) is to define OON, provide clarity on when the OON Deductible will apply, clarify when claims that would normally be treated as OON will be treated and paid as in-network, and document the process for Appealing a Denial of Pre-Service or Post-Service Request for In-Network Treatment of Out-of-Network Provider.

Consistent with the active medical plan and current administrative procedures, the plan administrator of the active employee medical plan has authorization to determine whether an Out-of-Network provider should be treated as an In-Network provider subject to the guidelines summarized below. On an annual basis, geographical areas shall be identified as Rural, Suburban, or Urban based on the definitions below.

Urban – Population density is greater than 3,000 persons per square mile.

Suburban – Population density is between 1,000 and 3,000 persons per square mile.

Rural – Population density is less than 1,000 persons per square mile.

The table below is utilized to determine if there are sufficient numbers of in-network providers within the mileage specified from the member's residence for services to be considered in-network or out-of-network (OON):

Provider	Urban	Suburban	Rural
PCPs	Two within five miles	Two within 10 miles	Two within 20 miles
OB/GYNs	Two within five miles	Two within 10 miles	Two within 20 miles
Pediatricians	Two within five miles	Two within 10 miles	Two within 20 miles
All other specialists	Two within five miles	Two within 10 miles	Two within 20 miles
Acute care hospitals	One within five miles	One within 10 miles	One within 25 miles

1. If the Criteria for In-Network providers from the above table are not met, providers chosen by the member that are licensed in the area of care being sought by the member shall be treated as In-Network for purposes of coverage levels, deductibles, and out of pocket contributions by the member. Note: Authorization does not guarantee the provider will bill the insurance directly so the member may be required to pay up front and submit for reimbursement.
2. If there is an insufficient number of in-network providers in a given specialty (e.g. cardiologist, endocrinologist, dermatologist etc.) within the miles listed in the table above, an OON specialist that is licensed in the area of care being sought by the member and chosen by the member, shall be treated as In-Network.
3. Example: A member lives in San Luis Obispo and needs to see an Orthopedist. There is only one In-network Orthopedist within the mileage limits above. The member would be able to submit a pre-service request to treat an OON Orthopedist as In-Network and once

the plan administrator confirms this meets this MOU's guidelines, all claims would be treated as In-Network.

Note: Authorization does not guarantee the provider will bill the insurance directly so the member may be required to pay up front and submit for reimbursement.

4. Even if the conditions in the table above are met for a sufficient number of in-network providers, if an In-Network provider is not available within a medically necessary timeframe, the member may request a pre-service authorization for an OON provider to be treated as In-Network. If the request meets the conditions of this MOU, such request shall be granted and the authorized provider who is licensed in the area of care being sought by the member, shall be treated as in-network.
5. If an In-Network provider refers a member to an OON provider and the conditions in this MOU are met (e.g. not enough providers in the network for that specialty), the OON provider the member is referred to shall be treated as In-Network so long as the provider is licensed in the area of care being sought by the member.
6. If a member receives treatment at an In-Network facility, all claims resulting from the treatment will be treated as In-Network.
 - a. Example: A member is hospitalized at an In-Network facility and the treating Anesthesiologist is OON, the claims from the Anesthesiologist will be treated as In-Network.

If an In-Network provider becomes OON, the member may appeal to request that claims with the provider continue to be covered as In-Network for 180 days. Such request shall be granted upon verification by the plan administrator the conditions of this MOU are met.

7. Once an In-Network authorization has been granted for an OON provider, said authorization shall remain in effect for 180 days regardless if other providers are added to the network. If adequate coverage with an in-network provider becomes available during the 180-day period, the medical plan administrator will notify the participants of new network provider availability, and the participant can decide to move to the in-network provider at the end of their 180-day period, or continue with the OON provider and have claims processed as OON. Coverage during the 180-day period for the authorized OON provider will be treated as In-Network. Members are able to check in-network availability online, via 800 number, or in the Sydney app.
8. The plan administrator retains discretion to deny approval of specific Out-of-Network providers as an In-Network provider if the conditions of this MOU are not met.
9. Denial of a request for In Network treatment of an Out-of-Network provider, or other disputes regarding Out-of- Network coverage, will not be subject to the Parties' grievance procedures under the collective bargaining agreement. However, a member can appeal

a denial of a request for In-Network services from an Out-of-Network provider, as described below.

Process for Appealing a Denial of Pre-Service or Post-Service Request for In-Network Treatment of Out-of-Network Provider:

1. Member appeals through the plan administrator appeal process (once an Advocacy Services Provider is established, the appeal process will start with them).
2. If the appeal is denied, PG&E shall be notified of the denial and the denial shall be forwarded to PG&E Benefits for evaluation.

RETIREE MEDICAL

Update subsidies to replace those currently being provided under Retiree Medical Employer Contribution (RMEC) and Retiree Medical Savings Account (RMSA)

Establish a Retiree Health Reimbursement Account (RHRA) to credit the new pre-Medicare and Medicare subsidy replacements as follows:

Pre-Medicare Retirees and Pre-Medicare eligible spouses - \$15,000 each per year

Medicare Retirees and Medicare eligible spouses - \$1,800 each per year

Current notional accounts to be updated (RMEC/RMSA) to eliminate balance (no grandfathering option) and set pre-Medicare and post Medicare subsidy levels with an automatic escalation (cost of living adjustment).

Improve retiree experience – concierge support for plan selection and enrollment. Expert, unbiased guidance from licensed benefit advisors.

Pensioners would pay premium directly to the carrier of the coverage they select instead of monthly pension check and be reimbursed through RHRA.

Eliminate PG&E sponsored retiree major medical options and leverage the marketplace to provide access to more cost-effective health plans.

Retiree Health Reimbursement Account (RHRA):

1. No RHRA funds accumulation limit.
2. Any HRA funds accumulated while active transfer to the RHRA upon retirement as long as the employee is eligible (age 55 with 10 Years of Service) until balance is depleted.
3. Prior RHRA funds balance maintained when retirees become Medicare eligible.
4. All IRS eligible expenses qualify for RHRA reimbursement.
5. Accumulated RHRA funds will be available to retirees whether or not they are enrolled in the PG&E selected Individual Insurance exchange.
6. Debit card to be provided to participants for qualified expenses payment – as long as administratively possible.
7. Automatic annual funding rate escalator of 3% for the Pre-Medicare RHRA subsidy amount.
8. Automatic annual funding rate escalator of 3% for the Medicare RHRA subsidy amount.
9. Funding level of \$15,000 for Pre-Medicare eligible retiree only/Pre-Medicare eligible spouse per year.
10. Funding level of \$1,800 for Medicare eligible retiree only/Medicare eligible spouse per year.
11. RHRA funds of annual funding amount available upon effective date of RHRA plan as long as the retiree is enrolled in the PG&E selected Individual Insurance Exchange.

12. RHRA funding once per year in January as long as the retiree is enrolled in the PG&E selected Individual Insurance Exchange.
13. If a retiree is Medicare eligible and has a RHRA eligible spouse who is not Medicare eligible, the spouse RHRA will be funded at the Pre-Medicare retiree rate while the retiree RHRA will be funded at the Medicare rate and vice versa.
14. In the event a retiree passes away with an eligible surviving spouse on their RHRA at the time of passing, the surviving spouse shall continue to have their RHRA funded annually as long as their eligibility for the plan continues.
15. Hearing Aid benefits provided in LA-13-68 shall continue to be available for retirees whether or not they are enrolled in the PG&E Exchange
16. In accordance with the Affordable Care Act, a participant who chooses to take the Affordable Care Act Premium Tax Credit would have any prior RHRA funds frozen and unavailable until such time as they choose to use the provided employer subsidy or becomes Medicare eligible
